# Programme **Structure**

## Phase 1:

### Building a Foundation

**Learn to think like a performance marketer**
(Weeks 1-2)

## Phase 2:

### Running Real Performance Campaigns

**Learn how to run real campaigns on Meta, Google, eCommerce, LinkedIn and X**
(Weeks 3-11)

## Phase 3:

### Scaling, Optimising and Presenting Campaigns

**Learn to fix, scale and present campaign performance like a performance strategist**
(Weeks 12-14)

# Programme **Curriculum**

14 weeks · 28 live sessions · 3 phases that mirror how real performance teams work

## Phase 1:
## Building a Foundation

Weeks 12-14

### 1. Developing Customer Intelligence

- Identify ICPs, pain points, and offers that convert
- Convert insights into clear funnel messaging

**Key Topics:**
Ideal customer persona & Jobs to be Done mapping, pain/gain grid, competitor teardown, AI persona research, insight-to-offer mapping, TOFU/MOFU/BOF messages

---

### 2. Building AI-Powered Creatives and Pages

- Build ad creative & pages that get results
- Ship a conversion-ready landing page

**Key Topics:**
Key models: AIDA/PAS/BAB, swipe research, short-form scripts, AI copy rewrites, heatmap checklist, “above-the-fold” test plan, AI landing page creation

## Phase 2:
## Running Real Performance Campaigns

Weeks 12-14

### 3. Meta Ads and WhatsApp Commerce

- Launch Meta campaigns that don’t waste money
- Target people who convert to reduce CPL + improve ROAS
- Scale Meta ads without breaking learning
- Convert leads into paying customers via WhatsApp

**Key Topics:**
Meta Business Suite, ABO (Ad Set Budget Optimization) and CBO (Campaign Budget Optimization), ad placements, events setup, AI pre-mortem, Custom and lookalike audiences, Advantage+, AI comment mining, CPM/CVR, WhatsApp Business and automation

---

### 4. Google Search and Automation (Shopping + PMax + YouTube)

- Launch Google Search ads that capture high-intent users and convert them into leads/sales
- Optimise search campaigns to reduce CPC and improve conversions
- Scale performance using Google automation (Shopping + PMax)
- Create YouTube video ads designed for conversions

**Key Topics:**
Keyword research & mapping, Campaign & ad group structuring, RSA copy frameworks & extensions, Search term analysis & negative keyword mining, Quality Score levers & troubleshooting, Smart Bidding strategy, PMax setup, Feed quality optimization & product titles, Shoppable videos, Cross-channel & AI-driven optimisation workflows

---

### 5. E-commerce and D2C Marketing (Amazon, Flipkart, Quick Commerce)

- Drive sales on e-commerce marketplaces
- Move inventory during promos
- Execute measurable influencer campaigns and run live commerce events

**Key Topics:**
Sponsored products/brand/display ads, buy-box logic, reviews, listing SEO, AI catalog rewrites across e-commerce channels, Blinkit/Instamart ads, hyperlocal targeting, live commerce setup

---

### 6. Paid Social, Programmatic and OTT Campaigns

- Use non-Meta platforms (LinkedIn + X) to generate demand and leads for high-intent audiences
- Plan, execute and evaluate programmatic and OTT campaigns across DV360 and Indian streaming platforms
- Evaluate OTT/CTV placements and measure incremental uplift
- Plan how platforms work together, avoid audience fatigue, and allocate budgets rationally across channels

**Key Topics:**
Programmatic auctions & DV360 setup, OTT/CTV targeting & planning, Incrementality & attribution basics, Paid social campaigns across LinkedIn and X, AI-powered creatives, Media mix & budget allocation

## Capstone Project Part 1:
### Performance Planning and Campaign Set up

Set up real performance campaigns across Meta/Google with real money

## Phase 3:
### Scaling, Optimising and Presenting Campaigns

Weeks 12-14

### 7. Conversion Optimisation

- Diagnose performance campaign issues
- Apply the correct fix (creative, audience, funnel, landing page)

**Key Topics:**
CTR/CPC/CVR diagnostic logic tree, identifying creative fatigue vs audience exhaustion vs landing page issue, AI-based performance audit & insights extraction

---

### 8. Attribution & Decision Dashboards

- Attribute performance correctly and build dashboards that drive decisions

**Key Topics:**
GA4 + Looker Studio dashboards, data blending, paid vs organic vs retention cohort view, LTV measurement, creating “one page performance summary”, AI auto commentary on data

---

### 9. Scaling & Unit Economics

- Scale budgets without losing efficiency
- Speak the business language of CAC, LTV and Margins

**Key Topics:**
Scaling frameworks, CAC > LTV > Payback > Contribution margin, MER vs ROAS vs POAS, forecast model building, scenario planning, AI forecasting sheet generation

## Capstone Project Part 2:
### Post-Campaign Analysis and Presentation

Analyse campaign performance, post-optimisation, generate insights & present results

**Note:** The key topics list is not exhaustive and is subject to change as per the discretion of the institution.

# The **Capstone Experience**

Master the full performance marketing journey from strategic media planning to real-time campaign execution. Then dive deep into post-campaign analytics with AI-assisted reporting to optimise for maximum ROI and growth.

## **Part A**
## Performance Planning and Campaign Set up

- Define objectives, ICPs and channel mix based on a real brand brief
- Set up Meta and Google campaigns with structured tests across audiences, creatives and bids
- Allocate budgets, configure tracking and launch real-money campaigns funded by MICA & upGrad

Canva  Meta for Business

## **Part B**
## Post-Campaign Analysis and Presentation

- Analyse performance metrics across channels, cohorts and devices
- Identify drop-offs and diagnose creative, audience and funnel issues using AI audits
- Optimise bids, budgets and targeting, then build a GA4 + Looker Studio dashboard and present your ROI story

Google Analytics  CleverTap  Looker Studio
