India's First Global Media School

MASTER OF ARTS (M.A.)
in
POLITICAL COMMUNICATION (ONLINE)

Jindal School Of Journalism & Communication

ABOUT THE PROGRAMME

The M.A. in Political Communication at Jindal School of Journalism & Communication is a globally benchmarked, interdisciplinary, and first-of-its-kind, professionally oriented Master's programme responding to the rapidly changing role of media and communication in contemporary politics, elections, governance, public opinion, and democratic life.

Political communication today is shaped by the rise of digital platforms, new forms of political strategy, a sharper understanding of audience and voter behaviour and the evolving forms of media that are linked to the rise of new technologies like artificial intelligence. This programme equips students to critically examine and evaluate the linkages between political thought and communication systems in order to enable them to become professionals who can strategically craft and shape political narratives across various political contexts and media forms.

The programme balances theoretical rigour with online learning, combining canonical texts and new-age technologies with a futuristic pedagogy that is supplemented by case studies, simulations, campaign labs, and practitioner-led modules.

The programme is designed for both career-oriented professionals and research-oriented learners looking for comparative perspectives that balance the local, regional and international contexts.

Dean's Message

Kishalay Bhattacharjee

Professor and Dean

Jindal School of Journalism & Communication

At a time when public opinion is created and shaped on social media platforms through smartly presented narratives and short-form content, understanding the connections between media and politics becomes imperative.

In the new world order, political messaging has gone beyond rallies and mass media tools like radio or television. Elections are now steered by large-scale control rooms where teams of people pour over reams of data to determine granular insights about voters so that they can receive targeted messaging. Like all other forms of media consumption, even political narratives, have become a lot more targeted and aimed at micro units of society. None of this is possible without fully understanding the linkages between political thought, media trends and communication strategies.

The M.A. in Political Communication is our endeavour to bring to the fore the critical connection between storytelling and politics and how understanding this is necessary to make sense of the future.

While politics is about governance, rights and democracy, it cannot have an impact without a medium for the movement of these ideas and an opportunity to explore shared connections. Our programme is designed to create engaged citizens who can deeply examine the links between smart storytelling, diverse ideological systems, democratic ideas, and the new world order.

As part of the programme, students will be introduced to the foundational themes in communication studies and political thought along with alternative and new approaches to political communication. They will examine the nuances of political messaging and the importance of effective communication in sharing the ideas of the future with the relevant stakeholders. The programme combines canonical theoretical frameworks with hands-on practical components so that students are empowered to successfully apply the concepts learnt in class to real-time situations.

CAREER PATHWAYS

Political Campaign Management

Social Media Management

Policy Consulting

Political Strategy and Analysis

Public Relations and Publicity Management

Branding and Creative Strategies

Public Affairs Management

Leadership Communication

Data Analysis for Policy

Stakeholder Management and Government Relations

Legislative Research

ABOUT JSJC

Jindal School of Journalism and Communication (JSJC) is India's first global media school that prides itself on offering courses that respond quickly to shifts in the media landscape, while creating smart communicators for the future. Rooted in an ethos of ethical storytelling, JSJC places a strong emphasis on combining theoretical insight with application-based modules held together by a framework premised on intellectual curiosity combined with professional skill-building.

The programme lies at the intersection of political science and media and communication studies while adopting an interdisciplinary lens by borrowing concepts from political psychology, data analytics, stakeholder management and strategy. As a school that is interdisciplinary in its course structure and transdisciplinary in its pedagogy, JSJC is the ideal institution to offer a programme that combines key concepts from different disciplines to graduates who can ably respond to the needs of the fast-changing, global political landscape.

Media Studies

Political Science

Evidence-Based Research

Communication and strategy

GRADUATE ATTRIBUTES

Critical analysis of different forms of political communication across media systems

Evidence-based design of political communication strategy

Application of behavioural insight to political messaging

Data-based campaign planning and evaluation

Evaluation of ethical, legal, and democratic implications of political communication

Responsible engagement with AI, algorithms, and platform-based media

O.P. Jindal Global University

O.P. Jindal Global University (JGU) is a multidisciplinary, research-oriented university founded in 2009 by Mr. Naveen Jindal, in memory of his father Mr. O.P. Jindal. The university has faculty from 50+ countries, students from 160+ countries, and partnerships with 600+ institutions in 80+ countries.

JGLS

Jindal Global Law School

Jindal Global Law School (JGLS), the flagship school of O.P. Jindal Global University, established in 2009, is a leading institution of global legal education in India. JGLS offers an interdisciplinary curriculum with a strong emphasis on domestic, international, and comparative law. The School brings together distinguished faculty from around the world, extensive research centres, and global academic partnerships with top universities to provide students with international exposure and practical legal training. Through its research-driven teaching, global collaborations, and experiential learning opportunities, JGLS prepares graduates to address complex legal and governance challenges in an increasingly interconnected world.

ABOUT The Programme

Legislative drafting lies at the heart of constitutional democracy and effective governance. Through Acts and subordinate instruments, public policy is translated into enforceable frameworks that shape rights, build institutions, and guide social and economic life.

Yet in India, drafting remains largely a practice-driven skill, with limited structured academic training. This has often led to complex language, interpretive uncertainty, avoidable disputes, and occasional inconsistencies with constitutional principles.

The M.A. in Legislative Drafting is a specialised, interdisciplinary, and practice-oriented programme designed to strengthen this critical field. Bringing together public policy, governance, constitutional values, and plain-language principles, the programme equips learners to produce clear, accessible, and well-structured frameworks.

Students develop core competencies in drafting primary and subordinate instruments, strengthen their interpretive and constitutional understanding, engage with global best practices, and learn to design frameworks that reduce disputes and enhance clarity.

The programme aims to build a new generation of skilled drafters who can contribute to better-designed frameworks, stronger institutions, and more effective governance in India and beyond.

Course Structure

Quarter 1

Courses	Credits
Introduction to Legislative Drafting & the Legislative Process	5
Constitutional Framework for Legislative Drafting	5
Statutory Interpretation for Legislative Drafters	5
Total Credits	**15**

Quarter 2

Courses	Credits
Legal Language & Plain Language Drafting	5
Policy Analysis for Legislative Counsels & Drafters	5

Total Credits	**15**

Quarter 3

Courses	Credits
Drafting of Primary Legislation & Subordinate Legislation	5
Legislative Drafting for Social, Economic & Commercial Laws	5
Financial & Tax Legislative Drafting	5
Total Credits	**15**

Quarter 4

Courses	Credits
Comparative Legislative Drafting	5
Ethics, Accountability, and Transparency in Legislative Drafting	5
Capstone Legislative Drafting Project	5
Total Credits	**15**

Admissions

Duration	12 Months	Programme Credits	60

Eligibility

Bachelor's degree with 50% from any globally recognised University.
JSAT examination for the candidate with less then 50% marks, along with and the submission of a SOP and CV.

Selection Criteria

A Statement of Purpose expressing your interest and purpose for applying to this programme (700-750 words).

Tuition & Financing

Fee	Amount	Due Date
Registration Fee Payable	INR 25,000	To be paid upon the acceptance of the offer letter
Remaining Fee Payable	INR 2,50,000	To be paid as per the structure given by the University.
Total Fees	**INR 2,75,000**	

Jodo EMI Facility for Course Fee

OP Jindal Global University provides an opportunity to pay the fees in monthly installments at nominal cost through Jodo, an education centric financial services company founded by IIT-IIM alumni

JODO monthly payment plan comes at a low cost and offers the following benefits for all students:

- Covers all courses offered by JGU Online
- Fully digital process, takes around 15 mins to complete all loan formalities (from application to loan agreement signature)
- Only a PAN number is required for initial registration and approval
- 24×7 helpline number to assist you in your application

You can register for the plan at https://app.jodo.in/jgu or call Jodo representatives at 99729 82193, 96201 42953 for any assistance.

Learning Outcomes

On successful completion of the programme, graduates will be able to:

- Draft complete primary frameworks (Bills and Acts) with coherent structure, clarity, and enforceability.
- Anticipate and manage risks arising from design choices and language.
- Apply principles of interpretation to minimise ambiguity and reduce disputes.
- Translate policy objectives into effective and implementable frameworks, supported by impact analysis.
- Ensure alignment with constitutional principles, including institutional competence, rights-based considerations, and federal balance.
- Apply comparative and international drafting practices in the Indian context.
- Produce clear, citizen-centric text without compromising precision.
- Draft and manage multilingual texts, ensuring consistency across language versions.
- Draft delegated and subordinate instruments within defined authority structures.
- Demonstrate ethical, transparent, and participatory approaches, including stakeholder consultation and the use of drafting technologies.

Career Outcomes

Graduates of the M.A. in Legislative Drafting programme will be equipped for specialised roles in law, governance, and public policy that require advanced legislative and regulatory drafting expertise. Career pathways include:

- **Legislative Counsel / Draftsperson**
  in central and state legislatures, ministries, and government departments
- **Policy & Regulatory Specialist**
  in government agencies, regulatory bodies, and commissions
- **Compliance & Advisory Professional**
  in corporates, public sector undertakings, and international organisations
- **Public Policy & Governance Consultant**
  working on institutional design, regulatory strategy, and impact assessment
- **Legislative & Parliamentary Affairs Professional**
  supporting processes of consultation, drafting, and implementation

The programme prepares graduates to translate policy objectives into clear, coherent, and implementable frameworks, responding to the growing demand for skilled drafting professionals across public and private sectors.

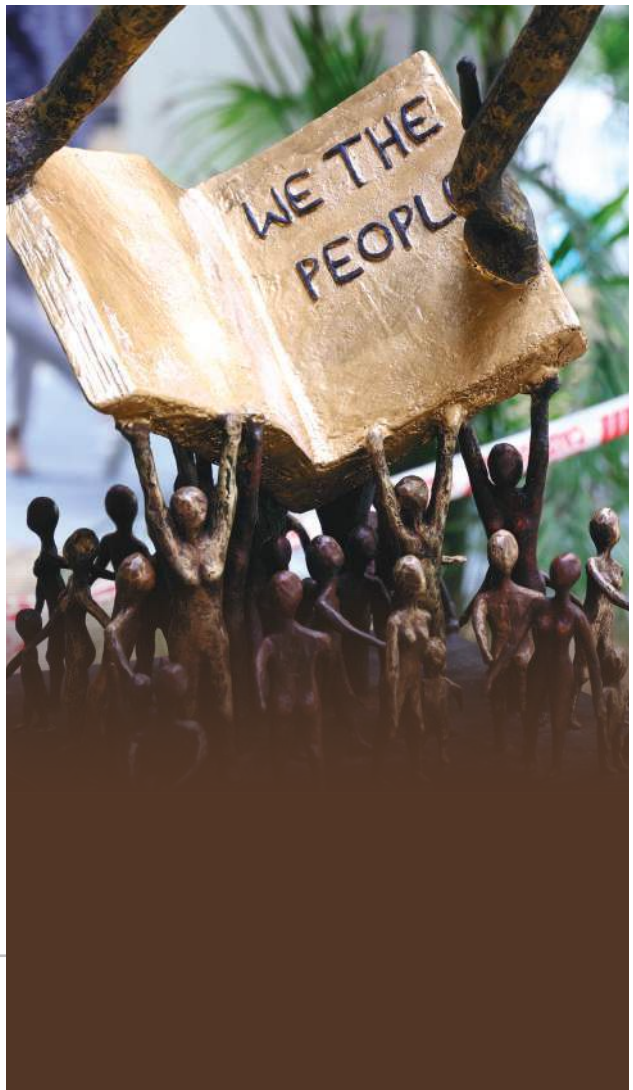
JINDAL SCHOOL OF GOVERNMENT & PUBLIC POLICY (JSGP) &
JINDAL SCHOOL OF INTERNATIONAL AFFAIRS (JSIA)

About O.P. Jindal Global University

O.P. Jindal Global University (JGU) is a multidisciplinary, research-oriented university founded in 2009 by Mr. Naveen Jindal, in memory of his father Mr. O.P. Jindal. The university has faculty from 50+ countries, students from 75+ countries, and partnerships with 525+ institutions in 80+ countries.

About JSGP & JSIA

The programme is jointly anchored in the Jindal School of Government and Public Policy (JSGP) and the Jindal School of International Affairs (JSIA), providing a uniquely interdisciplinary institutional foundation. JSGP contributes deep expertise in public administration, governance, regulatory institutions, public law, policy implementation, and state capacity, while JSIA brings strong strengths in comparative politics, international democracy assistance, global governance, election observation, and international norms. Together, the two schools create an ideal intellectual and professional ecosystem for training electoral administrators, election observers, democracy professionals, policy advisors, and political managers.



Message *from the* Dean

Professor (Dr.)SreeramChaulia
Professor & Dean
Jindal School of International Affairs (JSIA)

Professor (Dr.)R. Sudarshan
Professor & Dean
Jindal School of Government & Public Policy (JSGP)

The conduct of free, fair, and accountable elections is central to democratic governance. In India, and in most electoral democracies across the world, electoral processes and systems are facing new challenges arising from institutional complexity, technological innovations, ethical concerns, and evolving political and electoral behaviour of political actors and voters. The M.A. in Electoral Analysis and Management has been designed to prepare students to understand, analyse, investigate, and engage rigorously and professionally with these challenges.

As a Master's programme jointly offered by the Jindal School of Government and Public Policy (JSGP) and the Jindal School of International Affairs (JSIA), this degree will bring together complementary strengths in public policy, governance, and international and comparative political analysis. JSGP's focus on policy-relevant training and India's institutional governance context, combined with JSIA's emphasis on global perspectives and comparative institutional analysis, will provide students with a well-rounded and interdisciplinary learning experience.

The curriculum is methodically structured to integrate conceptual foundations with applied skills. Students will study comparative electoral systems, election administration, campaign regulation and finance, political behaviour, political ethics and institutional design, while developing practical competencies in electoral planning, regulatory compliance, psephology, stakeholder engagement, and analytical assessment. In this degree programme, elections are examined as institutionalised political processes shaped by law, governance frameworks, and power relations, rather than as standalone isolated events.

A distinctive feature of the programme is the Constituency Lab, which will offer simulation-based and experiential learning for our students. This component will enable students to apply classroom knowledge to real-world electoral scenarios, strengthening their analytical capacity, professional judgment, and ethical decision-making.

The programme will be delivered by internationally trained faculty members and enriched through engagement with practitioners and policy professionals. Graduates of the M.A. in Electoral Analysis and Management will be well prepared for careers in election management bodies, polling and psephological institutions, political parties, political consultancies, policy research institutions, civil society bodies, think tanks, and international organisations. The programme seeks to equip students with the knowledge, skills, and professional values required to contribute effectively to electoral integrity and democratic governance in India and across most electoral democracies worldwide.

As the first degree of its kind in India, one of the leading democracies of the developing world, we hope it will set new benchmarks for rigorous academic and policy-relevant study of electoral issues and produce election professionals and scholars who will go on to strengthen the lifeblood of democracy

About *the* Programme

The Master of Arts in Electoral Analysis and Management is a globally benchmarked, professionally rigorous programme designed to prepare the next generation of electoral professionals for leadership roles in democratic processes. Offered in a flexible online mode, the programme caters to students and working professionals seeking advanced, practice-oriented training in elections and political processes.

Contemporary elections operate at the intersection of law, institutions, political behaviour, data, technology, and public trust. Managing and analysing elections today requires far more than administrative competence; it demands a nuanced understanding of political systems, party competition, voter psychology, campaign strategy, identity politics, and democratic norms. This programme responds to these evolving demands through an integrated curriculum that views elections not as standalone events, but as deeply embedded political processes shaped by institutions, incentives, and power relations.

The curriculum is carefully structured to progress from foundational perspectives in political theory, comparative politics, and institutional analysis to applied training in campaign management, political communication, election finance, analytics, and psephology. Core courses blend conceptual rigour with practical application, while a diverse set of electives allows students to specialise in areas such as electoral forecasting, big data and political analytics, risk and crisis management, electoral jurisprudence, and civic mobilisation. A distinctive feature of the programme is the Constituency Lab, an immersive election simulation that enables students to apply classroom learning to real-world electoral scenarios through operational planning, strategic decision-making, and crisis-response exercises.

Designed for aspiring and mid-career election administrators, political professionals, policy analysts, consultants, and democracy practitioners, the programme combines global comparative perspectives with context-sensitive skills. Graduates are well equipped to work across electoral management bodies, political parties, campaign organisations, research institutions, civil society organisations, and international democracy and governance initiatives.

Course Structure

The M.A. in Electoral Analysis and Management is a fully online, flexible one-year master's programme structured across four academic quarters. Designed for working professionals and geographically dispersed learners, the programme comprises twelve courses (60 credits), including core and elective offerings, with an optional practicum. Students study three five-credit courses per quarter, with eight weeks of instruction followed by a dedicated revision and assessment period. Delivered through an online format, the programme combines high-quality pre-recorded lectures with live tutorials, discussion forums, and virtual office hours, enabling self-paced learning alongside meaningful faculty and peer engagement. The curriculum integrates strong theoretical foundations in politics, electoral systems, law, ethics, and political economy with applied training in campaign management, political communication, political analytics, and psephology, preparing graduates for careers in election administration, political consulting, governance, research, and democracy-related fields.

TERM 1

Courses	Credits
What is Politics?	5
Political Analytics	5
Comparative Political Systems	5
Total Credits	**15**

MOTWANI JADEJA INSTITUTE FOR AMERICAN STUDIES (MJIAS)

About JGU

O.P. Jindal Global University

O.P. Jindal Global University (JGU) is a multidisciplinary, research-oriented university founded in 2009 by Mr. Naveen Jindal, in memory of his father Mr. O.P. Jindal. The university has faculty from 54+ countries, students from 160+ countries, and partnerships with 600+ institutions in 80+ countries.

About MJIAS

Motwani Jadeja Institute for American Studies

The Motwani Jadeja Institute for American Studies (MJIAS) at O.P. Jindal Global University (JGU) is a premier interdisciplinary institute dedicated to advancing research, education, dialogue, and policy engagement on the United States of America (USA). It serves as a platform for critical inquiry into American society, politics, economy, culture, technology, and global influence, with a special focus on India–USA relations.

Established through the generous support of the Motwani Jadeja Family Foundation, the institute honours the legacy of the Late Professor Rajeev Motwani, whose contributions to technology, entrepreneurship, and scholarship continue to inspire globally. MJIAS reflects the visionary philanthropy of Ms. Asha Jadeja Motwani, a globally respected philanthropist and social innovator committed to open knowledge systems, women's leadership, civic engagement, and cross-border collaboration between India and the USA.

In a rapidly changing global landscape marked by geopolitical shifts, economic interdependence, and technological disruption, MJIAS seeks to deepen understanding of the USA as a global power and a key partner to India. The institute aspires to be a leading hub for interdisciplinary research, dialogue, and collaboration, fostering informed discourse and mutual understanding between two of the world's most influential democracies.

Message from the

Vice Chancellor

Prof. (Dr.) C. Raj Kumar

Founding Vice Chancellor
President, Motwani Jadeja Institute for American Studies,
O.P. Jindal Global University

O.P. Jindal Global University (JGU) was established with the vision to be a centre for world-class global education, and a catalyst for transformation and innovation. Marking a significant leap in the pursuit of that vision, it is my pleasure to announce the launch of the online M.A. (Master of Arts) in American Studies at the Motwani Jadeja Institute for American Studies (MJIAS). The MJIAS is envisioned as a premier interdisciplinary institute at JGU, dedicated to advancing scholarly research, education, dialogue, and policy engagement on the United States of America (USA).

In alignment with JGU's broader mission to be a multidisciplinary, research-oriented and socially responsible institution, the M.A. in American Studies is a unique interdisciplinary postgraduate degree open to Indian and international students covering all aspects of the past, present and future of the USA.

We welcome you to join this exciting programme to advance your career in diplomacy, polity, policy, academia, or international business.

Message from the

Director General

Prof. (Dr.) Mohan Kumar
Director General, Motwani Jadeja Institute for American Studies, O.P. Jindal Global University
Professor & Dean, Strategic and International Initiatives,
Professor of Diplomatic Practice, Former Indian Ambassador to France and Bahrain

As the Director General of the newly established Motwani Jadeja Institute for American Studies at the O.P. Jindal Global University, I have great pleasure in announcing the launch of the online master's programme in American Studies. This is a unique and one-of-a-kind programme in India.

It is a matter of some irony that while Indian Universities boasts of departments of Chinese studies, Japanese studies, West Asian studies or ASEAN studies, there are very few which offer anything substantial in American Studies. The programme hopes to fill this vital gap.

After all, it is widely acknowledged that the US-India strategic partnership is the most consequential one of the twenty-first century. It is therefore vitally important that we create a body of scholarship with knowledge and expertise of the USA.

This programme aims to do precisely that. It will be taught by professors who have either been academically trained in the US or by those who possess demonstrable knowledge in American society, polity and economy. I am confident that the programme will be of immense benefit for students and scholars alike.

Message from the

Programme Director

Prof. (Dr.) Ram B. Ramachandran
Programme Director,
Motwani Jadeja Institute for American Studies
Professor and Vice Dean, Jindal School of Banking & Finance,
O.P. Jindal Global University

Welcome to what I believe will be one of the most intellectually rewarding journeys you will ever undertake. The one-year online M.A. in American Studies at MJIAS represents something truly special—a chance to understand America not as a collection of facts and figures, but as a living, breathing civilization grappling with its highest ideals and deepest contradictions. Whether you are drawn to the philosophical tensions between liberty and equality that shaped the Constitution, the ongoing struggles for civil rights and social justice, or America's evolving role as a global superpower in the digital age, this programme will challenge you to think beyond surface narratives and engage with the complex realities that define American experience. Our interdisciplinary approach means you will move seamlessly from analyzing Supreme Court decisions to exploring how Hollywood shapes global perceptions of American values, from understanding Silicon Valley's technological revolution to examining how immigration continues to reshape American identity.

What excites me most about this programme is how it prepares you not just to understand America, but to engage meaningfully with the world's most influential democracy at a critical moment in its history. Through our carefully designed online format, you'll join a global community of scholars examining everything from the Founding Fathers' vision to contemporary debates about artificial intelligence and democratic governance, all while developing the analytical skills that open doors to careers across various disciplines.

This isn't just graduate school—it's your opportunity to become part of the ongoing conversation about democracy, technology, identity, and global leadership that will define the twenty-first century.

I invite you to bring your curiosity, your questions, and your unique perspective to help us understand not just what America is, but what it might become.

Course Structure

Term 1: Building America- Politics, Society, and Economy

Courses	Credits
The American Republic: Revolution, Constitution, and Political Development	5
Society, Race, and Identity in the American Experience	5
American Economic Power: From Industrial Capitalism to the Digital Age	5
Total Credits	**15**

Term 2: American Authority - Culture, Law, and Global Power

Courses	Credits
Culture, Literature, and the American Imagination	5
U.S. Foreign Policy: Ideals, Realities, and Global Power	5
Law, Justice, and the American Legal System	5
Total Credits	**15**

Term 3: American Ideas and Systems

Courses	Credits
Media, Technology, and Democracy in America	5
American Education, Innovation, Science and Environmental Politics	5
Technology, AI, and the Future of the American Economy	5
Total Credits	**15**

Term 4: America and the Future

Courses	Credits
America's Global Defense and Military Strategy	5
America and the World: Comparative Civilizations and Global Leadership	5
Master Dissertation Research Project (8,000–10,000 words)	5
Total Credits	**15**

Total Programme Credits: 60

Admissions

Duration *12 Months* | **Batch Starts** *Sept 2026*

Eligibility

- An undergraduate degree in any discipline from any recognised university in India or abroad.
- Govt. Issued ID Proof (Aadhar Card/PAN Card/Voter ID) for Indian Applicants & Passport for International Applicants.

Selection Criteria

- A Statement of Purpose expressing your interest and purpose for applying to this programme (500-750 words)
- Based on SOP submitted, interview may be aligned.

Tuition & Financing

Fee	Amount	Due Date
Registration Fee Payable	INR 25,000	To be paid upon the acceptance of the offer letter
Remaining Fee Payable	INR 2,50,000	To be paid as per the structure given by the University.
Total Fees	**INR 2,75,000**	

Jodo EMI Facility for Course Fee

OP Jindal Global University provides an opportunity to pay the fees in monthly installments at nominal cost through Jodo, an education centric financial services company founded by IIT-IIM alumni

JODO monthly payment plan comes at a low cost and offers the following benefits for all students:

- Covers all courses offered by JGU Online
- Fully digital process, takes around 15 mins to complete all loan formalities (from application to loan agreement signature)
- Only a PAN number is required for initial registration and approval
- 24×7 helpline number to assist you in your application

You can register for the plan at https://app.jodo.in/jgu or call Jodo representatives at 99729 82193, 96201 42953 for any assistance.

Learning Outcomes

Upon completion, graduates will be able to:

Demonstrate advanced interdisciplinary understanding of the United States' socio-economic functioning.

Critically analyze the role of innovation and technology in shaping American institutions, culture, and global engagement.

Apply comparative perspectives to global politics and governance.

Communicate complex ideas effectively in writing and speech.

Pursue academic, diplomatic, media, or business careers requiring deep understanding of the United States of America.

Career Outcomes

Graduates of the one-year online M.A. in American Studies are equipped with deep interdisciplinary knowledge of the United States and strong analytical, research, and policy-engagement skills, preparing them for impactful careers across global-facing sectors.

- ***Diplomacy & International Affairs***
- ***Public Policy & Governance***
- ***Academia, Research & Think Tanks***
- ***International Business & Corporate Strategy***
- ***Media, Communication & Cultural Analysis***
- ***Technology, Society & Digital Governance***
- ***Education, Advocacy & Global Engagement***

This programme develops not just subject expertise, but globally relevant perspectives essential for leadership in a rapidly evolving international order.

Specializing in AI | 1 Year Blended Learning Programme

About O.P. Jindal Global University

O.P. Jindal Global University (JGU) is a multidisciplinary, research-oriented university founded in 2009 by Mr. Naveen Jindal, in memory of his father Mr. O.P. Jindal. The university has faculty from 50+ countries, students from 75+ countries, and partnerships with 475+ institutions in 75+ countries.

About Jindal School of Art & Architecture (JSAA)

Jindal School of Art and Architecture (JSAA) is the design School of JGU, where learning happens through experiences, interactions, collaborations, and hands-on approach. Equipped with digital centers, fabrication labs, environmental research labs, and construction labs, JSAA brings together the best of academic expertise and industry experience.

From the Dean's Desk

Dr. Badrinarayanan Srinivasan

Executive Dean — JINDAL SCHOOL OF ART & ARCHITECTURE

PhD

Ex-Design Chair — UID ignite your ambition

In today's world, the need for new-age design and technical innovation, including AI, is paramount. Designers must keep up with the upcoming trends to craft user experiences that resonate with these dynamic landscapes. Through a blend of design thinking and AI integration, this program ensures that you are prepared to craft impactful digital artifacts. Built using a project-based learning approach, and infused with industry-driven apprenticeships, immersive workshops, and expert mentorship, this program ensures your development as a design professional ready to shape the future of digital experiences.

From the President's Desk

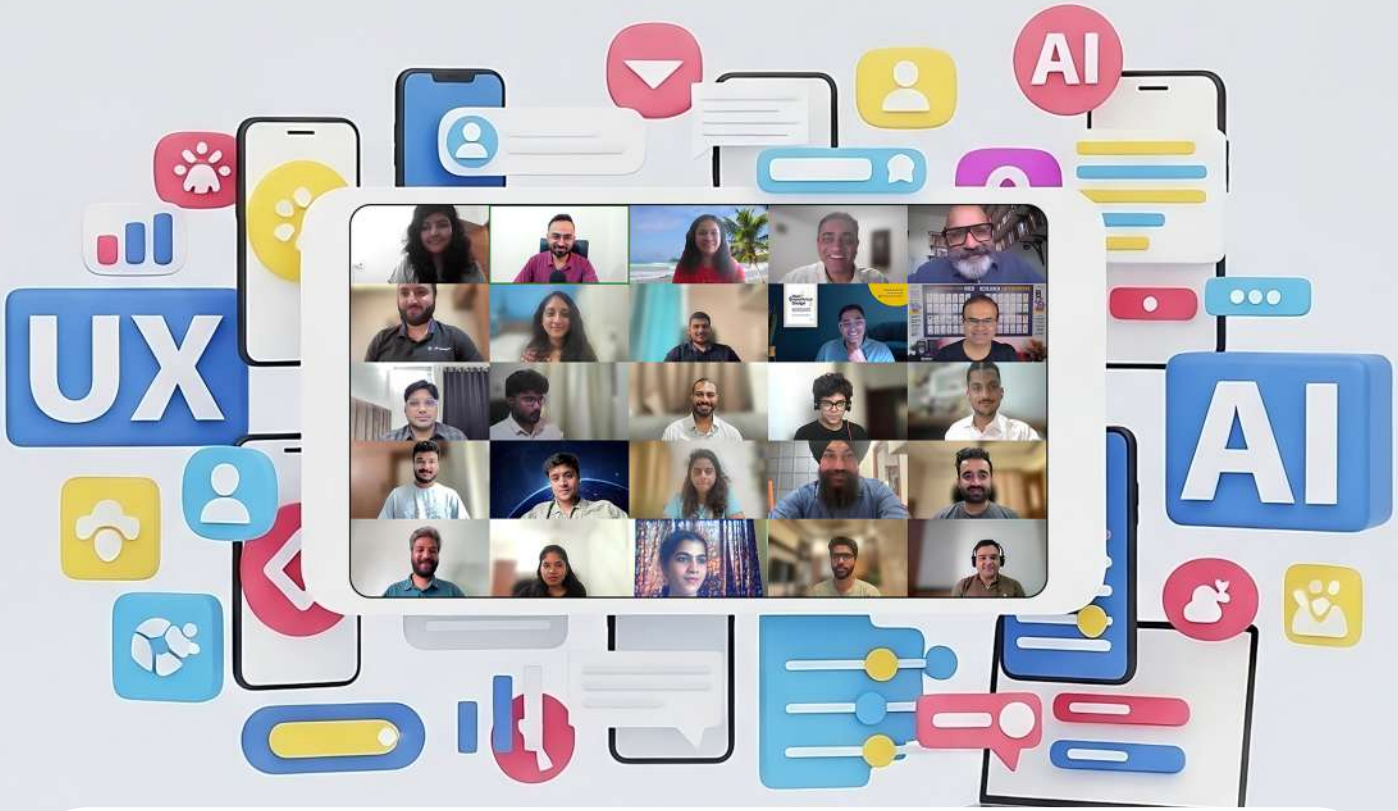
Prasad Kantamneni

Co-founder — uXreactor

Alumnus — Harvard Business School

Ex-Research Leader — yahoo!

"The future of design will be defined by new-age technologies that leverage the transformative power of AI. However, if you look at the market landscape, you will find an acute lack of quality workforce, especially in the UX domain. One should recognize that overall, the design sector is poised for significant growth in the coming years. This program is crafted to bridge this gap. Equipped with live projects with some of the most innovative companies, the program aims to provide students with hands-on experience for building a compelling portfolio. Under the mentorship of world-class design leaders from industry giants, students will be well-positioned to become trailblazers in AI-integrated design



About the Programme

True mastery lies in understanding the precision behind creativity. It's not just about making things beautiful—it's about making them meaningful. Every line, every interaction, every detail connects to create an experience that resonates. This philosophy is the essence of the Master of Design in User Experience. The programme equips designers with the knowledge to merge art and science, creating designs that not only captivate but also elevate user experiences to new heights.

This first-of-its-kind 1-year Master of Design in UX programme brings the best of academic expertise and industry exposure in one place. Designed by Harvard and Stanford alumni with decades of experience, this programme focuses on outcomes through an AI-integrated approach and dedicated practice projects.

3 core Pillars of the Programme

Give your design career the push it has been waiting for with the M.Des. programme built on three core pillars:

Learn AI

Learn all about design through a state-of-the-art curriculum infused with AI tools and frameworks.

01

Develop Portfolio

Stand out from the crowd by building a stellar portfolio featuring real world high-impact projects.

02

Connect with Industry

Work on practical initiatives and get mentored by industry experts to gain a competitive advantage.

03

Why Pursue this Programme?

Here's why you should consider this transformative journey:

Industry-Aligned Learning

Built on real-world practices, the curriculum ensures your education is accountable, career-focused, and future-ready—designed to keep pace with rapid technological advancements.

Work on Cutting-Edge Projects

Gain practical experience through industry apprenticeships, working on impactful innovations such as the digital interface for India's first affordable bionic arm and AI-powered mental health experiences. These projects become part of your portfolio, demonstrating your ability to solve real-world challenges.

Leadership & Career Ownership

Go beyond technical skills—develop leadership and workplace capabilities that empower you to drive design projects and take ownership of your career growth.

Storytelling & Communication Mastery

Participate in dedicated workshops that help you communicate your ideas effectively, shape your personal brand, and earn influence and respect within your organization.

Build a Powerful Network

Connect with visionary leaders, mentors, and changemakers who are shaping the future of human-centered technology—and establish your own presence within this ecosystem.

Career reactor

The Knowledge Partner

Career Reactor was founded by the team behind UXReactor, and the curriculum is built upon the knowledge gained from working with the clients listed in the portfolio. Headquartered in California, UXReactor is an award-winning User Experience Design & Research firm. It understands the complexity involved in UX design and the challenges that organizations face in driving their most important user outcomes. UXReactor has thrived on those very challenges to carve out a niche for itself. With a leadership team that focuses on minimum theory and maximum outcome, UXReactor believes in "learning only what the industry expects."

Makers Hive

Reimagining Mobility with India's First Affordable Bionic Arm

An AI-powered, Made-in-India prosthetic that's

- **80% more affordable**
- **Offers 14 functional grips**
- **40% faster in user adoption**

Empowering millions to live with independence and dignity.

Verity HealXR

Immersive VR for Pain Relief & Recovery

Tackling chronic pain with precision rehab through AI + VR.

- **59% pain reduction**
- **35% improved range of motion**
- **Up to 50% faster training**

Revolutionizing therapy, training, and recovery outcomes.

CognitiveBotics

Provides an AI-driven platform to seamlessly integrate clinical therapy with home-based, personalized eLearning for neurodiverse children (autism, ADHD, Down Syndrome).

- **Tailored activity library for therapists**
- **Live progress tracking and parent training**
- **Adaptive learning via speech, pose, and AR**
- **Automated reports and appointment management**

Empowering Therapists & Parents.

Zensens.ai

AI-Driven Mental Wellness for the Modern World

Combating stress and burnout through tech-enabled care:

- **24/7 AI-powered emotional support**
- **Real-time stress tracking**
- **Mindfulness tools & community support**
- **Sync with wearables for personalized insights**

A holistic approach to emotional resilience.

Admissions

Programme Duration - 12 Months

Total Credits - 58

Eligibility Criteria

While the standard eligibility requires a bachelor's degree with a minimum of 50% aggregate marks, the following limited exceptions may be considered:

Marginal Shortfall (Rounding-off Provision)

Applicants with marginal shortfalls (e.g., 49.1%) may be rounded off to 50% and considered eligible. No additional qualifying test will be required.

45% to Below 49% Aggregate

Applicants scoring between 45% and below 49% may be considered eligible if they have a minimum of two (2) years of full-time relevant work experience.

Course Structure

Semester 1

Courses	Credits
Systems Thinking & Foundations of AI	3
Pragmatic UX Product Critique: Heuristics to Audit Reporting	4
Smart UX Tool Mastery: Optimize Design, Enhance Efficiency	4
Designing Transactional Experiences: User Interface Design Fundamentals	4
Introduction to Interaction Design: Ideation and Problem Solving	3
Introduction to Visual Design: Must haves for Industry	2
Communication Skills 1	3
UX Apprenticeship 1	6

Semester 2

Courses	Credits
Designing User Experiences with AI & Continuous Adaptation	3
Interaction Design Intensive: Building Functional Excellence for Usability	3
Visual Design Intensive: Designing to Influence Perception & Emotions	4
End-to-End Product Design Immersive	5
Introduction to Visuality & Representation	3
UX Research Intensive: Empowering Design with Informed Insights	3
Communication Skills 2	2
UX Apprenticeship 2	6

Merit Meets Opportunity

Scholarships that Recognise Talent

At JSAA, we believe that great design begins with great potential. To support and celebrate exceptional talent, we offer merit-based scholarships for outstanding candidates applying to the Master of Design in User Experience with AI programme.

What We Look For

Scholarships aren't just about past academic scores—they're about future promise. We look for individuals who bring:

- **A strong portfolio of work or demonstrable design thinking**
- **A genuine passion for design and creativity**
- **A curious, growth-oriented mindset**
- **Resilience, originality, and problem-solving attitude**
- **The drive to shape a better world through design**

Our scholarships are designed for smart, motivated students who stand out not just for what they've done, but for who they are—and what they can become.

How Scholarships Are Awarded

Scholarship decisions are made as part of the admissions interview process. This holistic evaluation allows us to go beyond marks and metrics, and understand your story, your spark, and your potential to thrive in the world of design.

What About My Portfolio?

Engage in industry-driven projects alongside expert guidance to build and groom your portfolio.

Projects & Assignments

- Case study-based hands-on projects.
- 10+ per semester.
- Build a portfolio with live projects.

Professional Development

- Build your professional brand.
- Build workplace competencies.
- Leadership Training to accelerate your career.
- Network with Industry leaders.

Job-Ready Portfolio

- Create an industry centric portfolio with live projects.
- Learn key storytelling skills to secure stakeholder buy-ins.
- Participate and prepare for top design roles.

What kind of projects will I work on?

- Use TAD framework in AI to solve unconventional problems for the medical industry.
- Design an optimal transactional experience for a tour agency.
- Design and propose an optimal visual experience for a B2B Dashboard.
- Design an end-to-end interaction design solution for a leading B2B product.
- Execute an end-to-end research study for a leading productivity product.
- Apprenticeship projects such as Innovating bionic hands, advancing virtual therapy, personalizing AI wellness, shaping neuro-tech.

MASTER OF ARTS (M.A.) INDIA STUDIES

100% ONLINE

Learn about India in its own terms

न हि ज्ञानसदृशं पवित्रं किञ्चिदत्र विद्यते।

There is nothing on earth equal in purity to wisdom.

(Bhagavad Gītā, 4.38, transl. S. Radhakrishnan)

ABOUT THE PROGRAMME

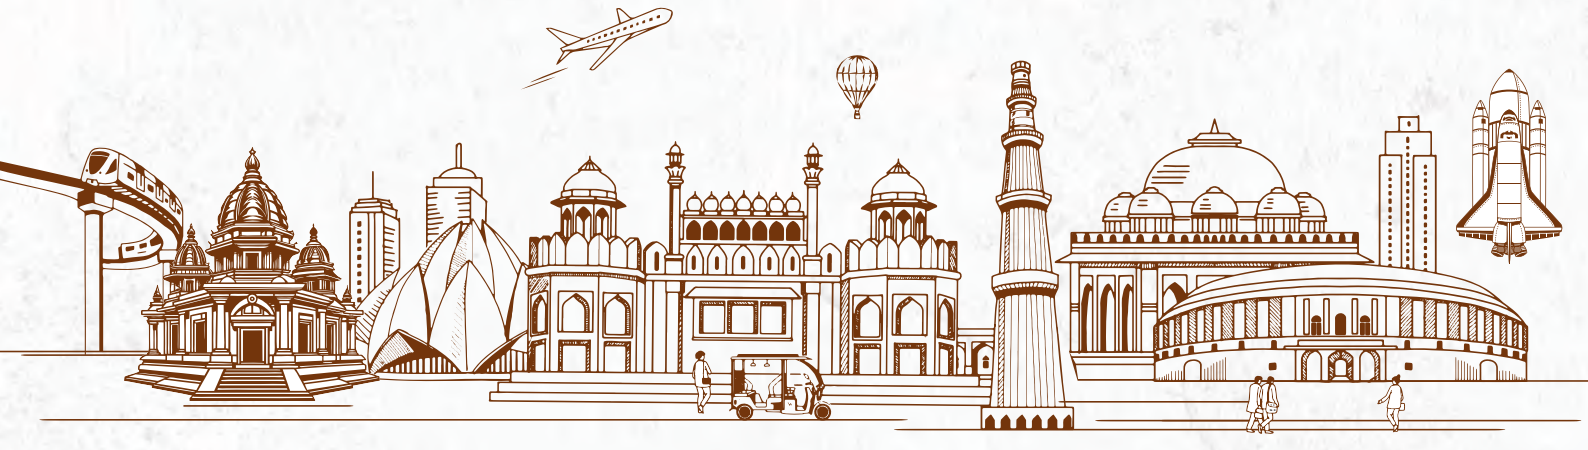
The Master of Arts (M.A.) in India Studies is a one-year, fully-online graduate programme that offers a unique opportunity to learn about India from an Indian perspective. Over the course of one year, you will explore everything from India's politics, history, philosophy, business practices, and technological advancements to its literature, music, dance, and cinema. This comprehensive programme is designed for those who wish to gain a deep and wide understanding of India's diversity and dynamism, while studying flexibly from anywhere in the world. With 100% online interactive learning, you can continue working, balance your personal life, and avoid costs of relocation, while accessing a rich repository of learning resources.

VISION

The M.A. in India Studies is a landmark initiative. It is the first full-degree Master's programme in India Studies offered by an Indian university. In an era marked by India's growing influence in the world, the programme responds to the increasing demand for a nuanced and interdisciplinary understanding of the nation. Delivered by leading scholars from India's top private university, that is ranked no. 1 in the world for online learning, this degree programme will empower students to critically examine and appreciate the complexities of India's civilisation and contemporary realities with objectivity and insight.

PROGRAMME OBJECTIVES

- To study India in its own terms and cultivate an India-centric perspective;
- Explore India’s nuanced realities as a bustling democracy, a hub of innovation in technology and business, an important contributor to the arts and sciences, and a civilisation of profound spiritual and philosophical depth;
- Draw from a wide array of academic disciplines to provide a holistic understanding of India and its place in the world;
- Equip students to critically examine India’s past and present, challenging conventional narratives while promoting independent thought and evidence-based analysis;
- Create opportunities for students and scholars to engage in intellectual exchanges, encouraging the development of original ideas and solutions based on India’s diverse experiences and emerging trends;
- To promote cutting-edge research and teaching methodologies in India Studies, ensuring a world class academic experience grounded in excellence and innovation.



CURRICULUM

The curriculum of the M.A. in India Studies is designed to provide an in-depth exploration of the nation's intellectual, cultural, historical, political, and economic landscapes. It seeks to empower students to explore India not as a monolithic entity but as a land of multifaceted identities. From its role as the world's largest democracy and a hub of technological innovation to its thriving cultural traditions and profound spiritual heritage, India presents a complex mix of contemporary and historical narratives. This curriculum is rooted in interdisciplinary learning borrowing from fields such as political science, history, philosophy, economics, religious studies, etc. Students will be encouraged to develop a contextual understanding of India, allowing them to critically engage with on-going discourses in a manner that is both intellectually rigorous and culturally informed.

TERM 1

Course	Credits
Ancient Civilisation, Rising Power: Indian Histories	5
Understanding the World's Largest Democracy: India's Domestic Politics since Independence	5
Between the City and the Forest: The Evolution of Indic Philosophy and Religions	5
Gateway to Writing and Research-I: Mastering Academic Writing Basics	2

TERM 2

Course	Credits
India's Rise on the Global Stage: An Introduction to its International Relations	5
Understanding Gender, Caste, and Social Justice in Contemporary India: A Sociological Perspective	5
The Stage, the Screen, and All That Drama!: Understanding Theatre, Cinema, and Entertainment in India	5
Gateway to Writing and Research-II: Bridging Disciplines, Theories, and Methods in India Studies	2

TERM 3

Course	Credits
Sacred India Alive: Yoga, Mindfulness, Bhakti, and the Lived Religions in Contemporary Contexts	5
India Innovates: An Introduction to Business, Science, and Technology in the World's Fastest-Growing Market	5
Appreciating Indian Music and Dance: Traditions, Evolution, and Global Influence	5

TERM 4

Course	Credits
Pathway 1 | Electives	
The Great Indian Diaspora: A Global Perspective	5
India Through its Literatures: Crossing the Ocean of Stories	5
Karma, Kursi, and Kurukshetra: An Introduction to Indian Strategic Thought	5
or	
Pathway 2 | Dissertation + One Elective	
Dissertation Seminar: An Exploration of Imagination and Voice in Academic Writing	10
One Elective of Choice (from the options presented in Pathway 1)	5

TEACHING

The programme adopts a balanced and flexible teaching model, combining synchronous and asynchronous methods to create a rich and engaging academic experience. This approach accommodates diverse learning styles and encourages active participation, ensuring that students can learn effectively wherever they are, and at their own pace.

Asynchronous Learning | Pre-recorded Video Lectures

Pre-recorded video lectures delivered by course instructors form the cornerstone of asynchronous learning. These lectures primarily cover secondary sources, providing students with the flexibility to engage with content at their own pace. Students can review and revisit content as needed. By offering detailed overviews of key concepts and debates, these video lectures allow students to build a solid conceptual foundation.

Synchronous Learning | Live Lectures

Live lectures are organised to ensure real-time interaction between students and instructors. These sessions focus on engaging with primary texts and sources, encouraging fruitful discussions, critical analysis, and immediate feedback. The synchronous nature of these lectures fosters a sense of community and allows for dynamic intellectual exchanges.

Programme Support | Student Support and Feedback Sessions

The Student Support and Feedback Sessions are held fortnightly to address administrative concerns, logistical queries or anything that cannot be addressed directly by the instructors. Led by the faculty coordinators, the sessions offer students a regular space to raise difficulties or share suggestions for improving the programme. The aim is to ensure a supportive and student-friendly learning environment.

Self-Directed Learning | Readings and Assessments

Independent learning is a critical component of the programme. Students are assigned carefully curated reading lists that include primary texts, book chapters, journal articles, and other relevant materials. Assessments such as quizzes and reflective essays are designed to encourage students to synthesise their learning and demonstrate analytical skills.

MESSAGE FROM THE LEADERSHIP

“

At JGU, we have long believed that India must be studied as a producer of knowledge in its own right and not merely as an object of foreign interest. The development of the M.A. in India Studies programme began with an important question: why has the systematic and interdisciplinary study of India often flourished more prominently abroad rather than within India's own universities? This programme marks a corrective and bold reimagination of propelling India Studies on the world stage from a truly Indian perspective.

Prof. (Dr.) C. Rajkumar
President, Jindal India Institute
Founding Vice Chancellor, O.P. Jindal Global University

“

Why should the world look to London, Boston or Heidelberg to learn about India? The M.A. in India Studies offers something that no foreign programme can: the chance to study India from within, through Indian categories and perspectives. We have built a programme that is grounded in India but global in reach, unapologetically interdisciplinary and willing to confront both the power and the problems of the Indian experience. Come study India *in* its own terms! This is not an India imagined elsewhere but one speaking for itself.

Prof. (Dr.) Sreeram Chaulia
Director General, Jindal India Institute
Professor and Dean, Jindal School of International Affairs

The programme has been praised by diplomats and academics alike as a “necessity” to better comprehend rising India. The inaugural cohort brought together *22 students from 12 countries* including engineers, bureaucrats, journalists, academics, entrepreneurs, artists, spiritual seekers and Indophiles from across Asia, Africa, Europe, and North America – a microcosm of the plurality that India itself contains in its many regions, languages and cultures.

FROM THE STUDENT COMMUNITY

Let's hear from them directly

I recently started the M.A. in India Studies at O.P. Jindal Global University and it is absolutely mind blowing! You're introduced to ancient literature, history, and so much more. If you think Greece had it all, India is far more ancient and just as developed as the Romans—civilisation, cities, public works, administration, the lot. Sanskrit, the great ancient Indo-Aryan language of India and the liturgical language of Hinduism, Buddhism, and Jainism, is a key source for many modern languages, with deep links to both Latin and Greek. Yet all this has been largely ignored in Western histories…And today? India is racing ahead! This is a brilliant programme where you learn about India in all its colour and complexity, taught by Indian professors who brim with enthusiasm for a country that is already a world power.

Muiris Ó Céidigh

CEO, National Milk Agency of Ireland | Governor, Belfast Metropolitan College | Director, Heritage Council of Ireland

I just completed the first term of the M.A. India Studies programme, and the experience has been nothing short of amazing. As an American who has utterly fallen in love with India, first through yoga and then through travel, I was looking for a way to broaden my knowledge of the country's history, politics, economics, and culture, and the curriculum in this programme is precisely what I was after. It's well-rounded, engaging and I've found it all quite fascinating. It's taught by faculty who are enthusiastic about their subjects and about sharing their love of them in this programme, and they're supported by…staff who are genuinely helpful. I've really enjoyed meeting the cohort of students from all over the world…I already feel that I have learned a great deal and will look at India in a different light on my next visit. By the time I finish the programme, I know that the depth of my knowledge and understanding of India, where it has been and where it's going, will be truly remarkable, though never complete.

Michael Barnaby Levin

Yoga Instructor | Former Senior Research Associate, Foreign Policy Studies Program, Brookings Institution

I joined the first batch of the M.A. in India Studies at O.P. Jindal Global University after exploring many options in India that could support my social start-up in development engineering. This online programme fits perfectly and brings more than just theory. In the first trimester we explored Indian history, politics and philosophies like Hinduism, Buddhism and Jainism through real conversations with great professors. They make complex ideas clear and easy to relate to for anyone. My classmates are from all over the world and share many perspectives. The programme is helping me find the right business case and the exact social issue I want to focus on for my start-up. If you want to connect academic study with real impact, especially future social entrepreneurs, this programme stands out.

Vinay Chawla

Founder, Asian Centre for Development Engineering
Former COO, Reliance Bhutan Limited & Former Senior Director, OLA

The M.A. in India Studies programme at the O. P. Jindal Global University has been such a unique and eye-opening experience for me. I joined the programme wanting to learn more about India's history, culture, philosophy, politics, and international relations. The faculty are greatly knowledgeable, and their ability to make complex subjects accessible has made the classes both engaging and inspiring. I also greatly value the supportive environment created by the staff. The vibrant exchange of perspectives within the cohort by interacting with classmates from across the globe has broadened my own outlook about India and made the journey even more rewarding. This programme has strengthened my understanding of India's past, present, and future, and I would highly recommend it to anyone with a genuine curiosity about India.

Rajni P.

Student, O.P. Jindal Global University
Rajini is a graduate of our M.A. in International Relations, Security and Strategy programme, and is now pursuing her second Master's (in India Studies) at the university

I have been associated with India for a long time and I am currently living and working in Delhi. With more than eight years of experience here, I felt I knew India well...but I wanted to deepen my understanding of this wonderful country and its culture. When I discovered the M.A. in India Studies programme online, I knew it was the right course for me. So far, I have taken three courses and one of them also focused on philosophy and religion. All have been excellent, but the philosophy and religion course, in particular, made me feel like I was reaching the very core of the Indian heart. The programme's online format is a huge advantage. The video lectures are well-designed, and I can study at my own pace, something very valuable for professionals like me. Some assessments were challenging, but that was also the fun part. Returning to academics after 20–30 years, writing a short thesis was truly exciting and has motivated me to keep learning and developing. Whether you are a student, job seeker or professional anywhere in the world, this program offers a concentrated, one-year journey that immerses you deeply in India's history, culture and much more. I strongly recommend it to anyone interested.

Koji Sato
Director General, The Japan Foundation, New Delhi Office

O.P. Jindal Global University

O.P. Jindal Global University (JGU) is a multi-disciplinary, research-oriented university founded in 2009 by Mr. Naveen Jindal, in memory of Mr. O.P. Jindal. The university has faculty from 50+ countries, students from 75+ countries, and partnerships with 475+ institutions in 75+ countries. JGU upholds a 1:9 faculty-student ratio, appointing faculty from India and abroad who bring exceptional academic credentials and experience.

ABOUT
International Institute for Higher Education Research & Capacity Building (IIHEd)

The International Institute for Higher Education Research & Capacity Building (IIHEd) at O.P. Jindal Global University is an independent research institute dedicated to advancing higher education excellence in India and beyond. Through institution-building for nation-building & global development, IIHEd promotes excellence in higher education by conducting high- impact research, offering training for university administrators and policymakers, providing policy advisory through briefs and papers, and conducting outreach and consultancy initiatives.

VICE CHANCELLOR'S MESSAGE

PROFESSOR (DR.) C. RAJ KUMAR

Founding Vice Chancellor & Director, IIHEd
O.P. Jindal Global University

Educational institutions face unprecedented challenges and opportunities in today's fast evolving socio-political, environmental, and technological landscape. Navigating these changes, while ensuring the well-being of the learner is the need of the hour. It gives me great pleasure to introduce our new Online Master of Arts in Educational Leadership and Governance, a programme designed to enhance the leadership skills, and knowledge of today's education professionals, and meet the evolving needs of the dynamic education sector.

At O.P. Jindal Global University, we believe educational leaders are not just administrators—they are catalysts of deep institutional and system-level transformation. But to lead real change, one must understand how systems behave, why reforms often fail, and what it truly takes to build coherence, trust, and professional capacity. This online degree programme, combining academic rigour with practical knowledge, is built to accommodate experienced educators become reflective strategic leaders. The curriculum is designed to explore contemporary leadership theories, technological changes, resource management, and policies impacting the educational sector. Students will also get an opportunity to meet and collaborate with educational leaders from other institutions as part of their virtual classrooms.

Our goal is to empower educators, administrators, and policymakers with the tools and insights necessary to lead educational institutions. Rooted in global expertise and grounded in local realities, this programme offers critical perspectives and practical frameworks that empower you to navigate complexity and lead with clarity—so you can transform your institution from within.

MESSAGE FROM DEPUTY DIRECTOR

PROFESSOR (DR.) MOUSUMI MUKHERJEE

Professor &
Deputy Director (IIHEd)

Countries around the world are making policies to reform their systems of education driven by the needs of the fast-changing society and economy following scientific and technological developments around artificial intelligence, machine learning and robotics during the fourth industrial revolution.

Educational institutions and leadership are engaged in these reform activities to meet the needs of contemporary times. In the context of the economically developing world of the Global South educational leaders are also faced with multiple challenges of financial resource constraints, lack of adequately trained teaching and non-teaching staff and learners from diverse socioeconomic backgrounds.

There is little professional development and collaborative learning opportunities for educational leaders. Often, they can feel like "bowling alone" to meet the needs of a very demanding job, whereby they are accountable to multiple stakeholders inside and outside the educational institutions.

This Online MA programme in Educational Leadership and Governance has been designed for educational leaders, who are looking for professional development opportunities and a platform to build a sense of community by connecting with other educational leaders around the world.

The expert faculty members of the International Institute for Higher Education Research & Capacity Building have conducted consultation with educational leaders within India and beyond. They have brought local and global experience to curate courses specifically tailored to meet the needs of educational leaders in the fast-changing and complex twenty-first century society and economy. The program will provide an empowering experience for all those who seek to be in leadership positions and those who are already in leadership positions seeking professional development.

ABOUT *the* PROGRAMME

M.A. in Educational Leadership and Governance

The M.A. in Educational Leadership and Governance by the International Institute for Higher Education Research & Capacity Building (IIHEd) at O.P. Jindal Global University is a one-year online programme designed to address the evolving needs of educational leadership in a global context. With the rising importance of sustainable development and quality education, this programme equips learners with critical skills to lead educational institutions effectively. The curriculum combines insights into educational policy, management, leadership, and preparing graduates to drive positive changes within schools, universities, and other educational settings.

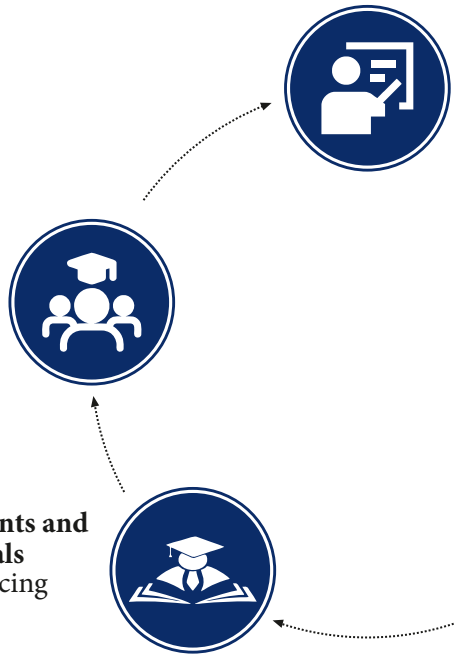
This programme emphasizes practical, research-based strategies and is structured to offer real-world applications in various areas, including instructional leadership, data-informed decision-making, and educational policy analysis. Graduates of this programme will be prepared to take on key roles in educational administration, contribute to policy-making, and foster innovation within educational systems.

Who is it for?

The M.A. in Educational Leadership and Governance is specifically crafted for professionals who are passionate about making meaningful contributions to education, supporting institutional growth, and guiding future-ready educational practices.

THIS PROGRAMME IS IDEAL FOR:

Teachers and Educators with minimum 3-years Bachelor's degree
with any specialization, followed by 5+ years of work experience
as head teachers, Principals in-service and aspiring Principals.



School Administrators
aiming to refine their
strategic management skills.

Aspiring Educational Policy Makers
focused on shaping impactful
educational policies.

Educational Consultants and L&D Professionals
interested in enhancing
their expertise.

Non-Profit Education Leaders
seeking to create sustainable
and higher quality
educational opportunities.

PROGRAMME HIGHLIGHTS

GLOBAL RELEVANCE:
This programme addresses critical aspects of educational leadership aligned with global sustainable development goals, preparing leaders to tackle current and future challenges.

INTERDISCIPLINARY CURRICULUM:
The curriculum covers essential areas, including instructional leadership, data-informed decision-making, and educational policy, offering a well-rounded skill set.

RESEARCH-DRIVEN APPROACH:
Designed based on in-depth market research and trends analysis, the programme incorporates highly demanded courses and topics to align with industry needs.

NETWORKING OPPORTUNITIES:
Learners gain access to exclusive events like Principal Conferences and HEI Conclaves, fostering connections with educational leaders and experts.

FLEXIBLE LEARNING FORMAT:
Offered online, the programme provides flexibility for working professionals, allowing them to upskill without disrupting their full-time and part-time jobs.

PROGRAMME OUTCOMES

School Leadership & Executive:
Prepare for elevated leadership responsibilities such as Principal, Vice Principal, or Academic Director. Strengthen your capabilities in strategic planning, academic leadership, institutional governance, and people management to effectively lead modern educational institutions.

Institutional Governance and Compliance Expert:
Gain in-depth expertise in managing school operations, regulatory compliance, and governance frameworks. Equip yourself to lead institutions with transparency, accountability, and alignment to national and international standards of safety and ethics.

Educational Policy Analyst and Advisor
Contribute meaningfully to the formulation and implementation of education policies at the institutional, regional, or national level. Learn how to influence policy environments, align practices with evolving regulations, and drive systemic transformation.

Leadership in Innovation and EdTech Integration:
Champion the integration of technology and innovation in education. Lead initiatives in digital transformation, data-driven decision-making, and tech-enabled learning environments to future-proof your institution.

School Development and Strategic Growth Consultant:
Support the strategic expansion and development of schools through curriculum innovation, infrastructure planning, institutional branding, and holistic improvement models. Ideal for those guiding new or scaling institutions.

Global Education Expert and Collaborations Strategist:
Position your school on the international education landscape by aligning with global benchmarks, facilitating cross-border partnerships, building frameworks for internationalisation, and global recognition.

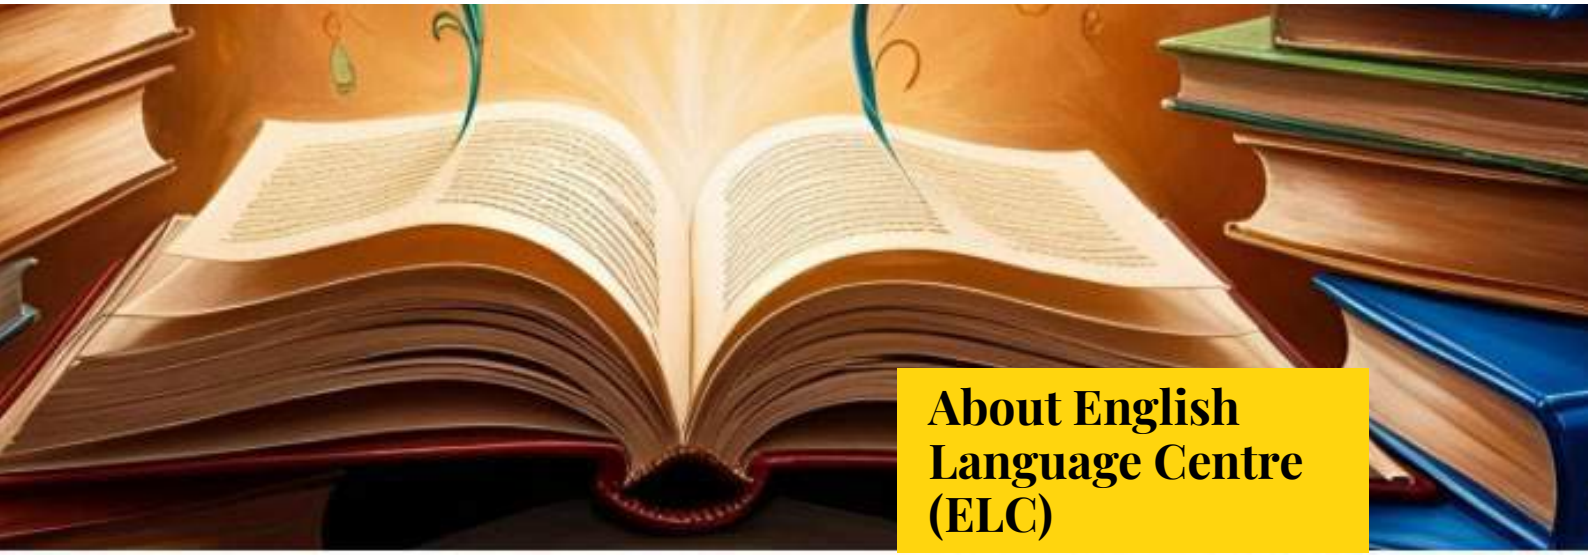
About O.P. Jindal Global University

O.P. Jindal Global University (JGU) is a multidisciplinary, research-oriented university founded in 2009 by Mr. Naveen Jindal, in memory of his father Mr. O.P. Jindal. The university has faculty from 50+ countries, students from 75+ countries, and partnerships with 475+ institutions in 75+ countries.



About English Language Centre (ELC)

Established in 2012, the English Language Centre (ELC) at JGU serves as the hub for teaching and learning English across reading, writing, listening, and speaking. It supports students from various schools—including Law, Business, International Affairs, Liberal Arts, and more—in developing the language proficiency needed to thrive as global citizens.

Beyond academics, the ELC fosters an appreciation for the aesthetics of the English language through engaging activities such as story writing, debates, public speaking, and poetry recitations. These are conducted under the banner of the English Literary Society, welcoming students from all schools to enhance their language and literary skills.

Vice Chancellor's Message

Prof. (Dr.) C. Raj Kumar

Founding Vice-Chancellor
O.P. Jindal Global University (JGU)

We take pride in designing programmes that meet the country's growing needs and make it proud of its human resources. India needs more than 10 million quality English Teachers to meet the increasing demands of English learners. We are launching the 1-year online M.A. in TESOL (Teaching English to Speakers of Other Languages) programme with the noble objective of providing high-quality teacher education. We firmly believe that this programme meets the needs of our young people who aspire to become effective and proficient English teachers, regardless of their undergraduate background. Our M.A. in TESOL programme aims to scaffold and nurture learners and aspiring teachers with the knowledge and skills to facilitate effective and inclusive language instruction. We seek to promote ethical and reflective practitioners who are receptive and responsive to the diverse needs of the learners. We strive to mould professionals who contribute meaningfully to the field through research, ethical practices, and a strong commitment to learner success.

The philosophy of the programme emphasizes inclusivity and diversity. We emphasize critical thinking, cultural awareness and equitable access to language learning opportunities. Our curriculum integrates research-driven language teaching methodologies with practical applications to meet the dynamic challenges of English language education. Further, the programme integrates cutting-edge research and the latest methods of language instruction by employing pedagogically sound online learning approaches. We firmly believe that participants in the programme will be well-exposed to the most effective teaching strategies at various levels, thereby meeting the diverse needs of the student community both within and outside the country. Our TESOL programme provides participants with an enriched understanding of second language acquisition theories and pedagogical principles, innovative instructional and curriculum design skills to create engaging learning experiences, intense research, and analytical skills for evidence-based teaching, promoting cultural and linguistic sensibilities to support diverse learners, and nurturing leadership qualities that help graduates advocate for quality language education.

We welcome aspiring educators, researchers, and professionals to join us on this transformative journey. With a strong commitment to excellence and innovation, our M.A. in TESOL programme is not just a degree but an exciting pathway to make a profound and enduring impact on global language education.

Dean's Message

Prof. Padmanabha Ramanujam

Professor of Law
Jindal Global Law School (JGLS)
Dean, Office of Academic Governance & Student Life

Established in December 2022, OEFL integrates language education and writing studies, offering students—especially those from diverse linguistic backgrounds—the opportunity to refine their reading, writing, listening, and speaking skills. OEFL also houses the English Language Centre (ELC), established in 2012, which enriches the programme's foundation in core language skills. The MA TESOL programme at the Office of English and Foreign Languages (OEFL), O.P. Jindal Global University, is designed to enhance English language proficiency and academic writing through a dynamic and inclusive learning environment.

This programme equips students with advanced knowledge, practical skills, and a global perspective in English language teaching and learning. Grounded in interdisciplinary research and innovative pedagogy, it fosters reflective and adaptable educators who can address the evolving needs of learners worldwide. Through cutting-edge teaching methodologies, critical inquiry, and ethical practices, graduates are prepared for diverse educational settings across the globe.

OEFL emphasizes inclusive, research-driven, and learner-centered education that values diversity, fosters critical thinking, and ensures equitable access to quality learning opportunities. Faculty specializing in linguistics, second language acquisition, and curriculum design provide a comprehensive and transformative academic experience.

With a strong focus on practical application, the programme blends theoretical knowledge with hands-on teaching experience, preparing students to excel in both academic and professional environments. Interactive coursework, mentorship from experienced faculty, and exposure to global best practices ensure that graduates emerge as confident educators and researchers. This programme enables students to become leaders in English language education, making a lasting impact through teaching and research. The academic journey here is an opportunity to grow professionally while contributing to the global landscape of language education.

On behalf of OEFL, I welcome you all.

Programme Highlights

- **Fully Online, Globally Relevant:** A 1-year, 60-credit, 100% online Master's programme designed to meet the global demand for skilled English language educators.
- **Expert-Led Curriculum:** Delivered by highly experienced faculty with diverse specializations in TESOL, second language acquisition, pedagogy, and research.
- **Innovative and Inclusive Teaching:** Focus on cutting-edge pedagogy, including the use of multimedia, digital tools, and AI in language teaching.
- **Practical Learning Experience:** Includes classroom-based applications, capstone projects, and opportunities for peer and faculty feedback on teaching practices.
- **Specializations and Electives:** Offers focused tracks like Critical Pedagogy, Corpus Linguistics, and Teaching English through Literature, etc. allowing learners to tailor their learning journey.

Programme Outcomes

- **Advanced Pedagogical Skills:** Graduates will design and deliver effective, inclusive English language lessons using diverse, up-to-date teaching methodologies.
- **Theoretical and Research Competence:** Ability to critically evaluate second language acquisition theories and conduct classroom-based research to inform teaching.
- **Assessment and Curriculum Design:** Competency in developing learner-centered curricula and assessments tailored to diverse needs.
- **Technological Proficiency in ELT:** Skill in integrating digital tools and AI into English language teaching for dynamic and engaging learning environments.
- **Professional Leadership:** Preparedness to assume leadership roles in TESOL, contribute to the academic community, and mentor other educators through continuous professional development.

About O.P. Jindal Global University

O.P. Jindal Global University (JGU) is a multidisciplinary, research-oriented university founded in 2009 by Mr. Naveen Jindal, in memory of his father Mr. O.P. Jindal. The university has faculty from 50+ countries, students from 75+ countries, and partnerships with 475+ institutions in 75+ countries.

Jindal School of Environment & Sustainability (JSES)

The Jindal School of Environment & Sustainability (JSES) is a pioneer in undergraduate education on environment and sustainability courses in India. The school of environment and sustainable development brings together esteemed faculty from around the world to foster a global perspective on these issues. JSES aims to equip students with the skills necessary to solve complex environmental challenges of the present and the future. Through a rigorous academic programme, students gain a deep understanding of environmental issues and develop critical thinking, problem-solving, and leadership skills.

VICE CHANCELLOR'S MESSAGE

DR. C. RAJ KUMAR

LL.B. (Delhi), B.C.L. (Oxford), LL.M.(Harvard), S.J.D (Hong Kong)

Founding Vice Chancellor, O.P. Jindal Global University (JGU)
Professor & Dean, Jindal Global Law School (JGLS)

Welcome to O.P. Jindal Global University (JGU). JGU was established as a non-profit, multi-disciplinary and research-oriented university in 2009 by the Founding Chancellor, Mr. Naveen Jindal, in memory of his father, Mr. O.P. Jindal. Within 15 years, the university has taken great strides by consistently ranking as India's Number 1 Private University, among the Top 150 universities globally under 50 years, among the Top 500 Universities as per the Graduate Employability Rankings 2022. In 2020, JGU was recognized as an 'Institution of Eminence' by the Ministry of Education, Government of India. Recently, JGU was ranked Number 1 in Times Higher Education Online Rankings 2024. JGU's global online programme relies on four key pillars: resources, engagement, outcomes and environment.

I am pleased to invite you to join our latest programme, "Master of Science in Environmental Change and Sustainability" by Jindal School of Environment and Sustainability (JSES). This fully online 1-year programme is designed to equip students with theoretical and practical approaches to deal with the critical issues of environmental change in the 21st century and design practical approaches towards realizing Sustainable Development Goals (SDGs). The programme has courses that focus on all domains of sustainability: science, social science, policy, finance, and technology. The course covers climate science, green markets, AI, geoinformatics, policy drafting, and more. Student experiences in this programme will include working on various hands-on projects and case studies in data analysis, sustainable practice, and policy development. The programme intends to impart large-scale sustainability training and education through online courses in alignment with the Sustainable Development Goals to all sections of society. In line with the JGU's objectives of providing practical solutions, the courses within the programmes strive to outline practical, result-oriented solutions to various environmental problems and challenges of the 21st century.

DEAN'S MESSAGE

PROF. (DR.) ABHIROOP CHOWDHURY

Professor & Dean
Jindal School of Environment & Sustainability

Jindal School of Environment and Sustainability (JSES) is the first interdisciplinary school that caters to holistic, global education in Environment and Sustainable Development, bringing inputs from both science and social science disciplines. JSES aims to train graduate and post -graduate students with the objective of offering result-oriented practical solutions to the pressing global issues in the domain, such as climate change and global warming, pollution and human health, species extinction, carbon-intensive production, and unsustainable natural resource exploitation. JSES aims to find these solutions through research and education-based approaches. Some of JSES faculties are listed amongst 2% of the world's most cited scientists, with global research footprints in international research projects and high citations in major scientific databases. JSES faculties are part of editorial boards of premier journal houses such as Nature-portfolio, Springer, Elsevier, Taylor & Francis and others.

JSES's new programme on M.Sc. in Environmental Change and Sustainability (ECS) is designed keeping in mind the employment opportunities that are rapidly evolving in the domain in mind. It aligns with JSES's mission of honing the 'green skills' of students and the public, making them global changemakers and sustainability champions. The rising trends in green jobs are evident from the employment growth of around 223% in the environment, social and governance (ESG) sectors between April 2019 and April 2023. The energy sector is rapidly transitioning from carbon-intensive to carbon-neutral, which can further open up around 3.7 million new jobs by 2025 and 35 million job opportunities by 2047. M.Sc. (ECS) curriculum caters to skill sets rooted in environmental management, pollution estimation and mitigation, natural resource management, climate change data analysis, and carbon offset analysis, along with covering the mandatory knowledge requirements of environmental and sustainability science and social science. Students will get necessary in-class exposure to hone their skills in data analysis tools, environmental risk assessment models, Geographical information systems and Remote sensing (GIS-RS). The major environmental and sustainability compliances required in industries, such as ISO 14001:2015, Blockchain management in the environment, Environmental Impact Assessment reporting, and United Nations Sustainable Development Goals (UNSDGs) compliances, are integral to the curriculum. The programme's primary emphasis is to generate green skills in professionals required to develop a successful career in environment and sustainable development and make them industry ready.

On behalf of JSES, I welcome you all.

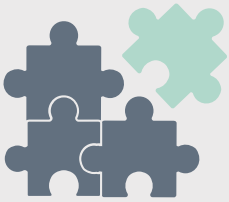
Key Features

Globally Recognized Master's Degree

Taught in English

100% Online

15 hours of dynamic faculty-led interaction per course



Learn from both academic experts and policy practitioners

Programme Outcomes

Environmental Science Expertise

Develop a deep understanding of environmental systems, climate change impacts, and sustainability principles.

Policy Formulation and Advocacy

Equips students with the ability to draft and implement policies for climate resilience and sustainable development.

Advanced Data Analysis Skills

Enables interpretation of complex environmental data for impact assessment and strategic decision-making.

Project and Stakeholder Management

Trains students in planning and executing sustainability projects while engaging diverse stakeholders.

Ethical and Leadership Competence

Fosters responsible decision-making and leadership in tackling environmental challenges at local and global levels.

Admissions

Intakes each year: September Cohort

Eligibility Criteria

- Bachelor's degree from any recognized university
- Govt. Issued ID Proof (Passport for International Applicants)

Selection Criteria

The candidate needs to submit a "Statement of purpose" of around 800 words discussing the role of this programme in their long and short-term career or personal growth.

Careers

After graduating from the Jindal School of Environment and Sustainability (JSES), you will be equipped to pursue a variety of rewarding career paths in the fields of environment and sustainability. Some potential career options include:

Environmental Manager

Analyzing environmental data, assessing impacts, and developing strategies for mitigation and adaptation as well as helping organizations to comply with environmental compliance norms.

Environmental Consultant

Advising organizations on sustainability practices, climate resilience strategies, and regulatory compliance.

Policy Analyst/Advisor

Contributing to the development and implementation of climate policies at local, national, or international levels.

Sustainability Manager

Overseeing initiatives to reduce environmental impact and enhance organizational resilience.

Sustainability Analyst

Evaluating and improving the sustainability performance of organizations by analyzing data, developing sustainability metrics, and recommending strategies to enhance environmental and social impacts.

Climate Risk Manager

Assessing and managing climate-related risks for businesses or governmental agencies.

Corporate Social Responsibility (CSR) Manager

Integrating climate resilience and sustainability into corporate strategies and operations.

Key Expertise Pollution assessment and management, Soil blue carbon sequestration, Mangrove restoration, Environmental health, Environmental Social Work

Dr. Govind Singh

Associate Professor and Associate Dean - Alumni Affairs
B.Sc.; M.Sc.; Ph.D. (University of Delhi)

Key Expertise Water resource management, environmental pollution & public health, environmental management, urban ecology, sustainable development, environmental education, disaster management, ecotourism, ICT.

Dr. Kumar Manish

Associate Professor, Associate Dean
B.Sc.; M.Sc.; Ph.D. (University of Delhi)

Key Expertise Biodiversity, Climate Change, Ecology, Evolution, Himalaya, Sustainable Development

Dr. Neelu Anand Jha

Assistant Professor, Assistant Dean
B.Sc.; M.Sc.; Ph.D. (University of Delhi)

Key Expertise Circadian rhythms, light pollution, human health, sleep, bioacoustics, avian biology

Dr. Rahul Devrani

Assistant Professor, Assistant Dean
B.Sc. (Hons) (University of Delhi); M.Sc. (HNB Garhwal University); Ph.D. (University of Delhi)

Key Expertise Geology, Geomorphology, Natural Hazards, River Sciences, GIS, Remote Sensing, Soil Erosion, Landscape Evolution

Dr. Brahma Gupta

Assistant Professor
B.Tech (Guru Ghasidas Vishwavidyalaya Central University); M.Tech (IIT Dhanbad) PhD (IIT Kharagpur)

Key Expertise Environmental Engineering, Environmental impact assessment, Environmental auditing, Life Cycle Analysis, AI and Machine Learning, Environmental Management Systems, Pollution and Health

Dr. Ayushi Srivastava

Lecturer
B.A, M.A (University of Delhi); PhD (IIT Delhi)

Key Expertise Environmental Economics, Blockchain, Value Chain Management, ESG, Environmental Reporting, Environmental education, Community engagement

Programme Highlights

Interdisciplinary Approach

Integrates scientific, legal, and policy perspectives to address environmental challenges effectively.

Technological Integration

Incorporates AI, machine learning, GIS, and geospatial tools for advanced environmental data analysis and sustainability solutions.

Hands-on Learning

Focus on experiential learning through projects, case studies, and capstone/thesis work on real-world environmental issues.

Global and Policy-Oriented Curriculum

Covers climate science, green markets, policy drafting, and sustainability strategies aligned with international standards and SDGs.

Career-Focused Training

Prepares students for roles such as Sustainability Manager, Environmental Consultant, and Climate Risk Analyst with an emphasis on practical problem-solving.

ABOUT

O.P. JINDAL GLOBAL UNIVERSITY (JGU)

O.P. Jindal Global University (JGU) is a multidisciplinary, research-oriented university founded in 2009 by Mr. Naveen Jindal, in memory of his father Mr. O.P. Jindal. The university has faculty from 50+ countries, students from 75+ countries, and partnerships with 475+ institutions in 75+ countries.

JINDAL SCHOOL OF PUBLIC HEALTH & HUMAN DEVELOPMENT (JSPH)

Established in 2021, JSPH aspires to be a world-class hub for innovation in public health research and action to meet the constantly-evolving and dynamic needs of public health in India, and across the world. JSPH aims to train the thought leaders needed to create an adaptable and sustainable public health ecosystem for the world. In post pandemic world, we recognize the critical need for highly trained professionals in the field of global health and human development. Hence, we are launching fully online M.Sc. in Global Health and Human Development.

VICE CHANCELLOR'S MESSAGE

DR. C. RAJ KUMAR

LL.B. (Delhi), B.C.L. (Oxford), LL.M.(Harvard), S.J.D (Hong Kong)

Founding Vice Chancellor, O.P. Jindal Global University (JGU)
Professor & Dean, Jindal Global Law School (JGLS)

Over the last 15 years, O.P. Jindal Global University (JGU) has evolved into a globally recognised multidisciplinary research-intensive university, setting benchmarks in higher education in India and beyond. In September 2021, JGU commenced academic sessions for the first cohorts of its online degree programmes. Designed with the vision of imparting holistic interdisciplinary education with flexibility, the curriculum focuses on nurturing problem-solving skills and fostering leadership qualities essential for moulding the change-makers of the future. By leveraging advances in technology and academic practices to benefit our students, our experienced faculty members have developed an accessible virtual learning environment where the restrictions of time and space cease to be obstacles, ensuring that every student can experience world-class education. In recognition of our consistent delivery of world-class online education, JGU was ranked No.1 in the world and awarded "Gold" by the Times Higher Education (THE) Online Learning Rankings 2024.

To meet the rising need for global health education, JGU is introducing the MSc in Global Health and Human Development by the Jindal School of Public Health and Human Development (JSPH). Established in 2021, JSPH has grown into an institution that delivers interdisciplinary and innovative public health education, bringing together faculty members with expertise across academia, research, corporate, governmental, and non-governmental sectors. The online MSc programme in Global Health and Human Development has been envisaged to help students to analyse public health through the lens of human development, and enhance the skills of working professionals to develop multi-pronged approaches to solve complex public health challenges.

I hope that all students in JSPH's M.Sc. in Global Health and Human Development programme will immerse themselves in the global, interdisciplinary and collaborative virtual classrooms, and contribute towards building a healthier, equitable and sustainable public health ecosystem.

DEAN'S MESSAGE

PROF. (DR.) STEPHEN P. MARKS

Professor & Dean, Jindal School of Public Health and Human Development

The Jindal School of Public Health and Human Development (JSPH) is the 12th school of O. P. Jindal Global University, established in 2022 with the visionary support of Prof. (Dr.) C. Raj Kumar, Founding Vice Chancellor. JSPH is dedicated to advancing public health and human development through academic excellence, research, and public service. Like all schools at JGU, we uphold the values of autonomy, academic freedom, and a strong commitment to social impact. As Dean, I feel privileged to work alongside faculty members who exemplify these values and bring their expertise and passion to our students.

JSPH currently offers a one-year residential Master of Public Health (MPH) and is excited to introduce the one-year online Master of Science in Global Health and Human Development (MSc GH) and a one-year non-residential Master of Health Systems (MSc HS). All three programmes integrate rigorous academic learning with experiential field-based training. Our curriculum aligns with the University Grants Commission (UGC) guidelines while incorporating global best practices in public health and human development. Students engage in research, dissertation work, and capstone projects in collaboration with global health organizations and community partners—gaining hands-on experience and exposure to potential employers. Regardless of their undergraduate background, students develop a deep understanding of global health challenges and explore innovative solutions that address the burden of disease at local, national, and global levels. Our approach is rooted in the Capabilities Approach, which frames public health within the broader context of human development.

Finally, we are immensely grateful to our students, whose enthusiasm and dedication continue to inspire us. As we welcome our first cohort for the Online M.Sc. in Global Health and Human Development, we look forward to fostering a diverse learning community—bringing together individuals from various ethnic, regional, linguistic, and disciplinary backgrounds—united by a shared commitment to making a meaningful impact in global health and human development.

We look forward to welcoming you to JSPH!

CAREERS

M.Sc. in Global Health & Human Development graduates will excel in roles such as Global Health Advisor, Public Health Specialist, International Development Consultant, and Policy Analyst, shaping policies and strengthening health systems worldwide. They also lead initiatives as Project Managers, Programme Coordinators, and Healthcare Development Officers in NGOs and global agencies. For those inclined in research, opportunities as Global Health Researchers provide avenues to drive evidence-based change.

PROGRAMME OUTCOMES

Foundations of Global Health & Human Development

Understand core concepts, principles, theories, frameworks, actors and institutions in the fields of global health and human development, and the intersections of the two.

Burden of Disease & Health Determinants

Examine the burden of disease and disability, its global, structural, social, biological, environmental and health systems determinants of health and wellbeing.

Critical Analysis of Health Factors

Critically assess and disentangle determinants of health and wellbeing across key global health fields to identify key levers of change at different levels.

Designing Public Health Solutions

Design and develop intervenable solutions to hone public health practice, recognizing the complexity of global health problems and solutions.

PROGRAMME HIGHLIGHTS

INTERDISCIPLINARY APPROACH

The programme integrates biomedical sciences, public health, and human development, providing a comprehensive understanding of global health challenges.

COMPETENCY-BASED LEARNING

Designed in alignment with the Consortium of Universities for Global Health (CUGH) framework, the programme covers 14 key domains such as global burden of disease, health equity, programme management, and planetary health.

GLOBAL PERSPECTIVE AND NETWORKING

The programme is structured for students and professionals worldwide, facilitating cross-border collaboration, peer learning, and international networking opportunities.

APPLIED LEARNING AND RESEARCH

Emphasizing real-world applications, the programme includes case studies, policy analysis, and research projects, equipping students with practical skills necessary for careers in global health.

FLEXIBLE AND ACCESSIBLE

Offered in an entirely online format, the programme provides a structured yet adaptable learning environment, catering to the needs of working professionals and students from diverse backgrounds.

ABOUT
O.P. Jindal Global University

O.P. Jindal Global University (JGU) is a world-class institution dedicated to academic excellence, offering a broad range of undergraduate, postgraduate, and doctoral programmes across multiple disciplines. Established with the vision of becoming a global leader in higher education, JGU combines academic rigor with a commitment to research, innovation, and social responsibility. The university's emphasis on interdisciplinary learning, global perspectives, and ethical leadership fosters an environment where students can thrive both academically and personally, preparing them to lead and contribute to society in meaningful ways.

ABOUT
IDEATE Lab

At the heart of JGU's commitment to innovation is the IDEATE (Innovation, Design, Entrepreneurship, Acceleration, Technology and Experimentation) Labs. This cutting-edge facility serves as a hub for students, entrepreneurs, and industry leaders, providing a collaborative space to explore creative problem-solving, entrepreneurial ventures, and technological advancements. IDEATE Labs offers a range of resources, including mentorship, incubator programmes, and access to state-of-the-art technology, fostering an entrepreneurial mindset and nurturing the next generation of leaders. Through IDEATE Labs, JGU encourages students to develop solutions that address real-world challenges, paving the way for impactful innovations across industries.

The Family Business Center at IDEATE Lab

O.P. Jindal Global University

The Family Business Center, of IDEATE Labs at O.P. Jindal Global University, serves as a dynamic platform dedicated to supporting the growth, sustainability, and evolution of family-owned businesses. Recognizing the significant role these enterprises play in India's economic, cultural, and social landscape, the Family Business Center focuses on fostering the next generation of leaders who can navigate the unique challenges and opportunities inherent in family-run businesses.

Part of the broader innovation and entrepreneurship ecosystem at IDEATE Labs, the Family Business Center blends academic excellence with real-world applications to provide a comprehensive suite of resources. It offers specialized programmes, workshops, and research initiatives that focus on critical aspects such as leadership development, governance structures, succession planning, conflict resolution, and strategic management within the family business context.

By leveraging the collaborative environment of IDEATE Labs, the Family Business Center facilitates creative problem-solving, entrepreneurship, and innovation tailored specifically to the needs of family-owned businesses. The Center works closely with industry leaders, family business owners, and thought leaders to ensure that students and entrepreneurs are equipped with the skills and insights needed to drive long-term success and growth.

Through its unique position within IDEATE Labs, the Family Business Center aims to ensure that family businesses not only preserve their legacies but also embrace new opportunities for innovation, sustainability, and global expansion. This collaborative space nurtures the development of visionary leaders who will shape the future of family enterprises in India and beyond, ensuring they remain resilient and adaptable in an ever-evolving global market.

VICE CHANCELLOR'S MESSAGE

PROFESSOR. (DR.) C. RAJ KUMAR

Founding Vice Chancellor,
O.P. Jindal Global University

Founding Vice Chancellor, O.P. Jindal Global University (JGU)

O.P. Jindal Global University (JGU) was established in 2009 as a non-profit, multi-disciplinary and research-oriented university, with the vision of promoting public service by imparting world-class global education in India. JGU has been consistently recognised as India's No. 1 Private University for setting benchmarks in higher education in India and beyond.

The JGU IDEATE LAB and the Family Business Centre have recently established JGU-wide initiatives, in alignment with our commitment to support and nurture the entrepreneurial spirit and promote venture-building efforts within JGU students, alumni and our wider ecosystem, especially amongst the large segment of family entrepreneurs. Recognising the potential and the significant role that family businesses play as vital engines of wealth and employment generation in India's economy, JGU has launched the Master of Science (M.Sc.) in Family Business programme.

JGU IDEATE LAB and the Family Business Centre will offer this comprehensive, cutting-edge, and meticulously crafted programme that will equip the students with not only knowledge but also with the necessary skills required to adapt their existing businesses with innovative business models and practices, while incorporating family business governance standards and legacy management for enhanced value and wealth creation. Using a multidisciplinary and holistic approach, this one-year non-residential programme will integrate best practices, innovative management tools, and mentorship from industry-leading organisations and experts.

In alignment with JGU's motto "A Private University Promoting Public Service", this programme aims to create the next generation of family entrepreneurs who will design creative solutions to lead their family ventures for greater profitable outcomes, sustainability, longevity, and value creation for their stakeholders.

DIRECTOR'S MESSAGE

PROFESSOR. (DR.) TEJPAVAN SINGH GANDHOK

Director IDEATE LAB
Professor (Dr.) of Practice Strategy & Entrepreneurship
Jindal Global Business School

I have the great privilege to be the founding Director of JGU IDEATE LAB and Family Business Centres. We are highly entrepreneurial in our mindset and focused on our mission to support support and mentor entrepreneurial venture building efforts amongst JGU students, families, alumni and our wider ecosystem, especially amongst the large segment of family entrepreneurs which represent such a vital engine of our economy's wealth and employment creation. It is estimated that Family Businesses contribute around 70-85% to India's GDP and employing approximately 60% of the workforce, much more so than most other world economies.

Several well-known mega trends such as climate change/ sustainability, income inequality, shortening corporate and business model life spans, technology led disruptions and rapid changes, increasing urbanization and shifts to nuclear families etc. represent significant challenges and opportunities for Family Entrepreneurs and Business Families. We have launched this online Master of Science (M.Sc.) in Family Business programme to help support budding Family Entrepreneurs in their capability development efforts and contribute more impactfully towards their Family Business initiatives in this dynamic and complex environment. This one-year non-residential programme offers a comprehensive, multidisciplinary, holistic approach. It integrates world class practices, leading tech and innovation management tools, local ecosystem network connections and mentoring to enable participants to drive practical applications for impactful outcomes. The ideal participant in this programme would be a young entrepreneurial family member, typically the next generation, intending to build a career and drive to next level impact some appropriate aspect of their entrepreneurial family. The heart of the learning approach is centred around best practices in experiential action project-oriented learning, in addition to cutting edge technology enabled tools to enable distance and a-synchronous learning, combined with active mentoring and networking. Accordingly, all programme participants are strongly encouraged to enter this programme, with a Strategic Project Initiave and project champion/ sponsor (eg an influential member of the family venture's now generation leadership). Typical impact projects could range from for example existing business growth transformation / new diversification venture / family wealth management initiative/ legacy impact initiative / governance initiative etc. We request all applicants to broadly outline the context and key objectives of their strategic action learning project. Upon your acceptance into this programme,

We will work closely with you and your Project Champion/ Sponsor to tailor and refine the specific scope and approaches and milestones as the programme progresses.

We warmly welcome budding Family Venture Builders to join us and eagerly look forward to our interactions and shared journeys that this programme enables.

ABOUT THE PROGRAMME

The M.Sc. in Family Business is a thoughtfully designed one-year postgraduate programme aimed at nurturing future leaders of family-owned enterprises. Rooted in the understanding that family businesses are distinct in their structure, values, and long-term vision, the programme equips students with the strategic, financial, and leadership skills required to manage and grow these enterprises successfully.

The curriculum blends academic depth with real-world relevance, covering areas such as governance, succession planning, innovation, and sustainable business practices. With a strong emphasis on ethical leadership and global awareness, the programme enables students to honour their family legacy while confidently embracing modern business challenges. Whether preparing for generational transition, scaling operations, or exploring new markets, graduates of this programme are empowered to lead with purpose, resilience, and vision.

Immersion Fee (Optional)	To be Announced	To be Announced

Jodo EMI Facility for Course Fee

OP Jindal Global University provides an opportunity to pay the fees in monthly installments at nominal cost through Jodo, an education centric financial services company founded by IIT-IIM alumni

JODO monthly payment plan comes at a low cost and offers the following benefits for all students:

- Covers all courses offered by JGU Online
- Fully digital process, takes around 15 mins to complete all loan formalities (from application to loan agreement signature)
- Only a PAN number is required for initial registration and approval
- 24×7 helpline number to assist you in your application

You can register for the plan at https://app.jodo.in/jgu or call Jodo representatives at 99729 82193, 96201 42953 for any assistance.

ADMISSIONS

Intakes each year: September & March

Eligibility Criteria Must have:

- A Bachelor's degree (or equivalent diploma/vocational training) in any field
- Active involvement as an entrepreneurial family member
- A clear intent to scale or impact some aspect of the family enterprise
- A defined strategic impact project (e.g. business transformation, new venture, wealth/legacy initiative, governance upgrade, etc.)

Preferable:

- 1–3 years of work experience post-undergraduation

Selection Criteria

Applicants are required to submit an Application Essay with the following components:

Introduction to Family Business:
a. History, nature of business/industry
b. Turnover and size (assets, employees, etc.)
c. Number of generations and siblings involved
d. Applicant's role and generation

Applicant Profile:
a. CV covering educational qualifications, work experience, and notable accomplishments

Description of Proposed Strategic Impact Project:
a. Context and key objectives
b. Estimated value or impact potential
c. Current stage (exploration, planning, implementation, etc.)

Statement of Support by Project Sponsor/Champion:
a. Sponsor's identity and role
b. Desired outcomes
c. Timeframes and resources committed for the project

PROGRAMME HIGHLIGHTS

Courses are designed with real-world relevance, blending case studies, simulations, and business tools to help students tackle practical family business challenges.

3
CAPSTONE WITH REAL-WORLD IMPACT

Students apply their learning to solve a live challenge in their own or another family business through a guided capstone project.

4
ETHICS, INNOVATION, AND GOVERNANCE FOCUS

Curriculum emphasizes ethical leadership, strategic innovation, and strong governance practices crucial to family business sustainability.

5
GLOBAL PERSPECTIVE, LOCAL RELEVANCE

Equips students to lead with a global mindset while preserving the cultural and traditional values of family-owned enterprises.

STUDENT VENTURES

MR. HARDICK RAJA

Enlight Agrotech (Enlight AgroTech)

Hardick Raja, a proud alumnus, is transforming Indian agriculture through Enlight Agrotech by providing sustainable solutions that increase yields by 20–40% while reducing chemical use. In just two years, the startup has expanded from 1 state to 4, reaching over 1,000 farmers. With incubation support from UASB, the venture is poised for further innovation. Hardick now aims to scale these eco-friendly practices to millions of farmers and urban gardeners, advancing sustainable growth and food security across India.

MR. VISHAL SINGH

Hemploom India (Hemploom India – Helping You & Mother Earth)

Vishal Singh is a proud Alumnus of JGU. Passionate entrepreneur in sustainable fashion, Founder & CEO of Hemploom India, driving eco-friendly hemp fibre-based clothing solutions to promote sustainable living through highquality, earth-friendly fashion.

MR. MOKSH MIDDHA

The Other Side

Moksh Middha, a JSBF Batch of 2022, is the founder of The Other Side, a luxury fashion label established in 2025 under Quiet Luxuries Private Limited. Moksh aims to create a true luxury fashion brand, blending exquisite materials with expert craftsmanship.

FEATURED FACULTY

PROF. (DR.) TEJPAVAN SINGH GANDHOK

Director, IDEATE Lab,
Professor of Practice,
Strategy & Entrepreneurship Area
Jindal Global Business School (JGBS)

B.E. (University of Melbourne); MBA (UCLA, Los Angeles); Ph.D. (Singapore Management University)

PROF. (DR.) PRIYATEJ KOTIPALLI

Deputy Director, IDEATE Lab,
Associate Professor,
Jindal Global Business School (JGBS)

B.H.M. (University of Mumbai);
MBA (JNTU, Hyderabad); Ph.D.
(Erasmus University, Netherlands)

MENTORS

MR. PHILIPPE J WEIL

Mr. Philippe is an established leader in operating international Family Offices and a trusted consultant. His passionate holistic approach to Family and Business is unique and impactful. PJW is an author of books and articles, a well-respected international speaker and docent.

MR. SURAJ MALIK

Mr. Suraj has experience in setting up and managing family offices and trusts for business owners for effective succession planning. Active in contributing to family office ecosystem in India on areas such as growth strategy and finance and providing solutions on ownership structuring, asset protection, fund raising and exit planning.

DR. VINOD SURANA

Dr. Vinod is a renowned lawyer, mediator, and conflict management specialist, recognized among "100 Legal Luminaries of India" by Lexis Nexis and recommended by Chambers & Partners for Corporate/M&A. He holds advanced qualifications from institutions like Harvard, Cornell, LSE, and IIMs. Beyond law, he is a CEO coach, keynote speaker, and policy advocate with a deep interest in diplomacy, organic living, and mediation. His work blends legal expertise with a commitment to peace, progress, and purposeful leadership.

MR. AJAY SHARMA

Director & Promoter,
Shree Baidyanath Ayurveda Bhawan Pvt. Ltd.

Mr. Ajay Sharma leads Shree Baidyanath Ayurveda Bhawan Pvt. Ltd., India's largest Ayurvedic medicine manufacturer. A key figure in the third generation of the Baidyanath legacy, he has played a pivotal role in its growth beyond the 100-year mark. Educated at St. Joseph's School, Mayo College, and Allahabad University, he joined the family business at 19 and took charge by 35. He serves on the boards of Santokba Durlabhji Memorial Hospital and the Chauhan Bhawan Ayurveda Research Foundation. Recipient of the prestigious Nagarjuna Award, Mr. Sharma is also a passionate painter and lives in New Delhi.

ECOSYSTEM PARTNERS

Venture Builders of JGU

PROGRAMME OUTCOMES

ENTREPRENEURIAL AND GROWTH ORIENTATION

Develop the mindset and tools to innovate, diversify, and scale family ventures in competitive markets.

FINANCIAL AND OPERATIONAL EXPERTISE

Build strong skills in financial planning, risk management, and sustainable business practices tailored for family firms.

STRATEGIC LEADERSHIP READINESS

Graduates gain the ability to take on senior leadership roles and manage transitions in multi-generational family businesses.

MASTERY OF FAMILY BUSINESS GOVERNANCE

Deep understanding of succession planning, conflict resolution, and governance structures unique to family enterprises.

ETHICAL, RESPONSIBLE, AND GLOBAL OUTLOOK

Lead with integrity while navigating global markets, digital change, and social responsibilities.

About O.P. Jindal Global University

O.P. Jindal Global University (JGU) is a multidisciplinary, research-oriented university founded in 2009 by Mr. Naveen Jindal, in memory of his father Mr. O.P. Jindal. The university has faculty from 50+ countries, students from 75+ countries, and partnerships with 525+ institutions in 80+ countries.

About Jindal School of Banking & Finance (JSBF)

At Jindal School of Banking & Finance (JSBF), we understand the importance of highly trained professionals in the interdisciplinary fields of technology, innovation, analytics, finance, accounting, risk and regulations. Our bachelor's & master's degree programmes are designed to equip you with the skills and knowledge needed to become a future business leader in this rapidly evolving industry.

Message from the **Vice Chancellor**

O.P. Jindal Global University (JGU) was established with the vision to be a centre for world class global education, and a catalyst for transformation and innovation. Marking a significant leap in pursuing that vision, it is my great pleasure to announce the launch of the online Master of Science (M.Sc.) in Artificial Intelligence & Finance at the Jindal School of Banking & Finance (JSBF), delivering a future focused curriculum through the pioneering approach of virtual classrooms with live sessions with world class faculty.

Driven by the vision to reimagine financial education for the 21st century, JSBF brings together experienced faculty members, online classes and experiential learning to deliver a holistic education ecosystem designed for the ambitions of the new age of learners. The programme is purposefully designed to train future leaders navigate the evolving domain of Artificial Intelligence, Robotic Process Automation, and Machine Learning as applied in the financial services industry through the interdisciplinary lens, with a focus on hands-on learning and industry exposure.

In alignment with JGU's broader mission to be a multidisciplinary, research-oriented and socially responsible institution, the M.Sc. in Artificial Intelligence & Finance is focused on shaping socially aware, professionally adept, and intellectually curious individuals who will contribute positively to the world. I am confident that this transformative programme will empower each student to embark on a journey that connects ambition and access, knowledge and application, and education and impact

Prof. C. Raj Kumar
Founding Vice Chancellor
O.P. Jindal Global University

Message from the **Dean**

It gives me great pleasure to welcome you to our one-year online M.Sc. programme in Artificial Intelligence & Finance. Your decision to pursue this intensive programme reflects your commitment to advancing your career while balancing professional and personal goals, a hallmark of today's ambitious learners. At JSBF, we aim to nurture intellectually curious, ethically grounded, and professionally agile graduates. This online programme combines academic rigour with industry relevance, while offering the flexibility to learn from anywhere in India and beyond. Through our advanced digital platform, you will engage with distinguished faculty, participate in live interactive sessions, and collaborate with peers from diverse professional backgrounds. The curriculum equips you with cutting-edge skills in machine learning for financial markets, algorithmic trading, AI-driven risk assessment, and regulatory compliance. Real-world projects and case studies from banks, fintech firms, and financial institutions ensure that your learning remains practical and up-to-date. As working professionals, your experience will enrich classroom discussions and collective learning. Our faculty, online support team, virtual labs, and digital resources will guide you throughout this journey. Welcome to a transformative year that will empower you to lead in India's rapidly evolving AI and finance landscape. Wishing you success in your academic pursuits.

Prof. (Dr.) Dayanand Pandey

Dean
Jindal School of Banking & Finance

Message from the **Chair**

It gives me immense pleasure to welcome you to explore our pioneering M.Sc. in Artificial Intelligence and Finance – a programme designed at the intersection of advanced technology and financial innovation. As India emerges as a global fintech leader, from UPI-driven digital payments to a thriving startup ecosystem, the need for professionals who can integrate AI and finance has never been greater. This programme addresses that gap through rigorous, industry-aligned education that is globally relevant and firmly rooted in the Indian context. The financial sector is undergoing rapid digital transformation. Banks are adopting agentic AI workflows, markets are becoming increasingly algorithmic, and fintech firms are reshaping financial inclusion. Yet, the demand for skilled talent far exceeds supply. Our quarterly format ensures focused, intensive learning while maintaining flexibility for working professionals. You will work with real datasets, examine SEBI regulations through an AI lens, and build solutions tailored to India's evolving financial landscape. Our state-of-the-art online platform enables global peer collaboration, access to computing resources, and interactions with industry leaders. With distinguished faculty and top practitioners, this programme prepares you to build trading algorithms, credit models, fintech innovations, and regulatory technologies. Join us in shaping the future of finance in a digitally empowered India.

Prof. Ram B. Ramachandran

Professor & Vice Dean
Chair, Center for Digital Learning
Jindal School of Banking & Finance

About the Programme

The M.Sc. in Artificial Intelligence & Finance at the Jindal School of Banking & Finance (JSBF) is an advanced, one-year interdisciplinary programme that bridges the worlds of technology and finance. Designed for professionals and aspiring learners, it combines academic rigor with real-world applications in areas such as machine learning, algorithmic trading, AI-driven risk assessment, and financial analytics. Through live online classes, hands-on projects, and global industry exposure, the programme equips learners to harness emerging technologies and drive innovation in the financial sector. With its focus on flexibility, industry relevance, and experiential learning, the M.Sc. in Artificial Intelligence & Finance prepares future-ready professionals to lead in the era of digital finance.

Admissions

Batch Starts

September 2026

Eligibility

- Undergraduate degree with at least 50% marks
- **Candidates with less than 50% marks must:**
  1. Appear for the JSAT examination
  2. Attend a mandatory interview

Selection Criteria

Selection will be based on a comprehensive review of the application, statement of purpose, and academic transcripts. Shortlisted candidates may also be invited for a brief personal interview, if required.

Tuition & Financing

Fee	Amount	Due Date
Registration Fee Payable	**INR 25,000**	To be paid upon the acceptance of the offer letter
Remaining Fee Payable	**INR 2,50,000**	To be paid as per the structure given by the University
Total Fee	**INR 2,75,000**	

Direct Payment Options

Payments can be made using credit cards, debit cards, net banking, UPI, and international payment methods.

Financing Options (For Indian Applicants)

O.P. Jindal Global University provides an opportunity to pay the fees in monthly installments at nominal cost through Jodo, an education centric financial services company founded by IIT-IIM alumni.

- Fully digital process, takes around 15 mins to complete all loan formalities (from application to loan agreement signature)
- Only a PAN number is required for initial registration and approval.

Career Outcomes

Graduates of the Online M.Sc. in Artificial Intelligence & Finance will be equipped for high-demand roles across the global financial and technology sectors, including:

- **AI & Machine Learning Specialist –** designing predictive models and automation solutions for financial systems.
- **Quantitative Analyst (Quant) –** developing algorithmic trading strategies and financial models.
- **Fintech Product Manager –** leading innovation at the intersection of technology and financial services.
- **Risk & Compliance Analyst –** leveraging AI to assess, predict, and mitigate financial risks.
- **Data Scientist (Finance Domain) –** extracting insights from complex financial datasets for strategic decisions.
- **Blockchain & Digital Asset Analyst –** working on cryptocurrency markets, smart contracts, and decentralized finance.
- **RegTech Specialist –** building AI-driven regulatory and compliance frameworks for financial institutions.

About O.P. Jindal Global University

O.P. Jindal Global University (JGU) is a multidisciplinary, research-oriented university founded in 2009 by Mr. Naveen Jindal, in memory of his father Mr. O.P. Jindal. The university has faculty from 50+ countries, students from 75+ countries, and partnerships with 475+ institutions in 75+ countries.

With globally benchmarked undergraduate programmes in Journalism and Media Studies, Film and New Media, and Corporate Communication & Public Affairs.

JSJC is India's pioneering liberal arts-driven school dedicated to nurturing the next generation of storytellers, journalists, media professionals, and filmmakers. With globally benchmarked undergraduate programmes in Journalism, Filmmaking, New Media, and Corporate Communication & Public Affairs, JSJC blends critical thinking with hands-on experience across audio, video, film, and digital media. Rooted in a spirit of free inquiry and creativity, JSJC empowers students to find their own voice, challenge conventions, and use the power of storytelling to document, engage with, and transform the world around them.

Message from the Vice-Chancellor

O.P. Jindal Global University (JGU) is a non-profit, multi-disciplinary and research-oriented university established with the vision of promoting public service by imparting world-class global education in India. In its pursuit of excellence, JGU was recognised by the Ministry of Education, Government of India as an Institution of Eminence. In global university rankings, JGU has been consistently recognised as India's No. 1 Private University for setting benchmarks in higher education in India and beyond.

Jindal School of Journalism and Communication (JSJC) was established in 2017 as a journalism programme comparable to the best in the world. In 2021 the school ventured into the exciting world of filmmaking and new media and eventually proceeded to curate an undergraduate programme in corporate communication and public affairs in 2022. These programmes provide a deep familiarity with audio, video, and film in all their various genres, with a special focus on emerging communication skills. The newly launched Master of Science (M.Sc.) in Strategic Communication by JSJC builds on this expertise to provide skill-based training in communicating messages in an organizational set up combined with creative storytelling practices.

Since the very design of communication is constantly evolving in our everchanging world, this one-year online programme will help the learners understand emergent forms of digital communication while grounding it in age-old strategies of making your ideas, messages and thinking accessible and memorable. In alignment with JGU's motto "A Private University Promoting Public Service", this programme aims to create the next generation of communication strategists who will design creative solutions to navigate the ever-evolving landscape of new media.

Prof. (Dr.) C. Raj Kumar

Founding Vice-Chancellor
O.P. Jindal Global University (JGU)

Message from the Dean

Polonius in Shakespeare's Hamlet says "Brevity is the soul of wit". This remains the cornerstone of effective and strategic communication.

Stories are the connecting fibre of the human race and language and communication are our shared heritage. At Jindal School of Journalism and Communication (JSJC) we believe that the rise of digital media has led to an ever-increasing demand for effective communicators and storytellers to provide compelling content. We equip our students with a strong interdisciplinary foundation in both theoretical and practical aspects of communication. Our first online programme, Master of Science (M.Sc.) in Strategic Communication, is guided by this approach.

The MSc in Strategic Communication at JSJC was curated keeping in mind the growing demand for a sharp and coherent communication programme in a rapidly changing world. We have to prepare for careers that will demand creativity and quick thinking. At JSJC, students are encouraged to be curious because that is the only lifelong learning. Media and Communication is projected to be a trillion-dollar industry but the most relevant skills would be problem-solving in a complex world.

Prof. Kishalay Bhattacharjee

Professor & Dean
Jindal School of Journalism & Communication (JSJC)

Under the mentorship of our stellar faculty, who are all leading scholars and professionals in their areas of expertise, this one-year programme focuses on training communication professionals who specialize in organizational communication, crisis management, developing globally relevant campaigns, data-driven communication strategies and stakeholder engagement. Through core courses in visual communication, branding strategies, data science, ethics, and media advocacy, the students will be trained to navigate complex media environments in corporate, governmental, non-governmental and global communication sectors. All courses are aimed towards providing theoretical and practical learning in effective communication strategies in an organizational framework, as well as in the space of marketing and PR. The particular bent in this program towards creative industries, as well as social responsibility, gives it an edge in training individuals towards becoming employed in the culture, as well the non-profit sector.

With the increasing demand on our sensorium in this attention economy, effective communication skills can give an undoubted edge to the well-trained person. We welcome all those who wish to be better communicators and socially responsible individuals.

In This Program, You Will...

1. **Learn the skills to navigate and communicate** strategies that will be the face of the project/company.
2. **Bridge the Gap** between academia and the corporate world to offer skills for effective leadership roles.
3. **Gain the skills** to drive change in your organization and in an uncertain world.
4. **Develop effective communication strategies** through stakeholder assessment, storytelling, rigorous research methods and multimedia messaging.
5. **Have learning opportunities** from a diverse and interdisciplinary cohort of top quality instructors.
6. **Complete an in-depth Final Project** with supervised research driven portfolio in close collaboration with real workplace giving you a competitive advantage.

About the Programme

The M.Sc. in Strategic Communication offered by the Jindal School of Journalism and Communication (JSJC) is a cutting-edge one-year online postgraduate programme designed to equip learners with the skills and knowledge necessary to thrive in today's fast-evolving communication landscape. Blending classical strategies of effective messaging with contemporary advancements in digital and new media and date driven content, the programme emphasizes both creative and strategic dimensions of effective communication.

Students will engage in interdisciplinary coursework covering areas such as strategic communication, visual storytelling, media ethics and advocacy, social structures, brand building and public relations. With an emphasis on practice and skill based learning, the programme offers opportunities for project-based learning and exposure to real-world communication challenges.

Taught by JSJC's experienced faculty who are leading experts in their respective fields, the programme is ideal for graduates and working professionals aiming to build or enhance careers in public relations, corporate communication, brand management and media advocacy. It stands out for its emphasis on hands-on training, global perspective, and commitment to ethical, socially responsible communication.

Prof. Sarah Zia

Assistant Professor and Programme Coordinator of Corporate Communication and Public Affairs
B.A. (University of Delhi)
M.A. (MCRC, Jamia Milia Islamia, New Delh

Key Expertise: Media relations and strategic communication

Prof. Venu Arora

Associate Professor of Practice & Assistant Dean of International Collaboration and Student Mobility
Co-Founder and Director, Ideosync Media Combine

Key Expertise: Audio Visual Communications, Communication for Development and Advocacy for Social Change, Audio Journalism, Podcasting, Sonic environments, Film Making, Gender and Migration, Digital Media Literacies

Prof. N. Lavanya Ramaiah

Assistant Professor
P.G. diploma (Film and Television Institute of India), Pune
M.A. in Communications (University of Hyderabad)

Key Expertise: Film Making, Documentary, Community centred storytelling, Scripting, Research and documentation, Media campaign design for Social change

Prof. N Ramakrishnan

Associate Professor
Executive Director, Ideosync Media Combine
B. Journalism (Hons), Delhi University
MA (Mass Communication)
MCRC, Jamia Millia Islamia

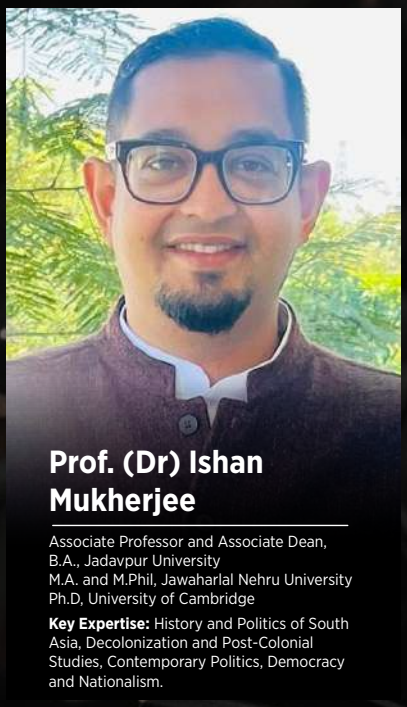
Key Expertise: Strategic communication, participatory communication, community media, media instruction, radio and television practice, communication research (formative, impact), development communication/ communication for social change

Prof. (Dr.) Arundhati

Assistant Professor
B.A. Hons English Literature, Delhi University
M.A. Mass Communication, AJKMCRC, Jamia Millia Islamia
M.Phil and PhD: Advanced Centre for Women's Studies, Tata Institute of Social Sciences, Mumbai

Key Expertise: Urban Studies, Mobility Studies, Representation of Gender in Media

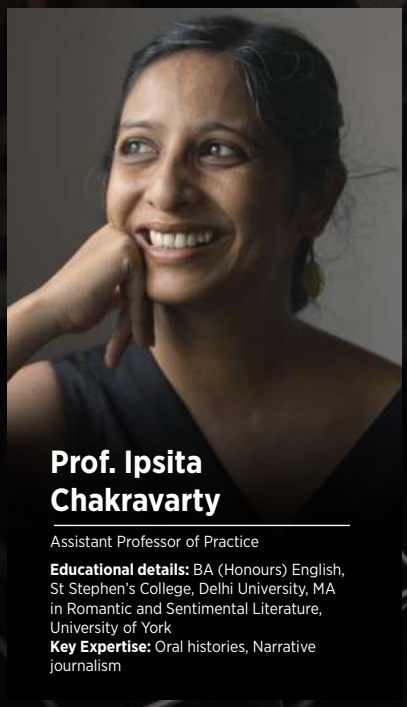
Faculty



Prof. (Dr) Ishan Mukherjee

Associate Professor and Associate Dean,
B.A., Jadavpur University
M.A. and M.Phil, Jawaharlal Nehru University
Ph.D, University of Cambridge

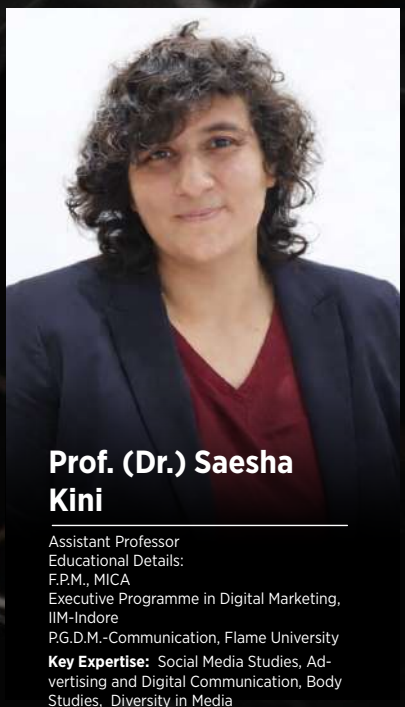
Key Expertise: History and Politics of South Asia, Decolonization and Post-Colonial Studies, Contemporary Politics, Democracy and Nationalism.



Prof. Ipsita Chakravarty

Assistant Professor of Practice

Educational details: BA (Honours) English, St Stephen's College, Delhi University, MA in Romantic and Sentimental Literature, University of York
Key Expertise: Oral histories, Narrative journalism



Prof. (Dr.) Saesha Kini

Assistant Professor
Educational Details:
F.P.M., MICA
Executive Programme in Digital Marketing, IIM-Indore
P.G.D.M.-Communication, Flame University

Key Expertise: Social Media Studies, Advertising and Digital Communication, Body Studies, Diversity in Media

O.P. Jindal Global University

O.P. Jindal Global University (JGU) is a multidisciplinary, research-oriented university foundedin 2009 by Mr. Naveen Jindal, in memory of his father Mr. O.P. Jindal. The university has faculty from 54+ countries, students from 100+ countries, and partnerships with 575+institutions in 80+ countries.

About IDEATE Lab

At the heart of JGU's commitment to innovation is the IDEATE (Innovation, Design, Entrepreneurship, Acceleration, Technology and Experimentation) Lab. This cutting-edge facility serves as a hub for students, entrepreneurs, and industry leaders, providing a collaborative space to explore creative problem-solving, entrepreneurial ventures, and technological advancements. IDEATE Lab offers a range of resources, including mentorship, incubator programmes, and access to state-of-the-art technology, fostering an entrepreneurial mindset and nurturing the next generation of leaders. Through IDEATE Labs, JGU encourages students to develop solutions that address real-world challenges, paving the way for impactful innovations across industries.

About the **Programme**

The M.Sc. in Entrepreneurship, Innovation and Startup is a transformative, industry-aligned programme designed to empower aspiring entrepreneurs, innovators, and venture leaders with the capabilities to create, grow, and scale sustainable businesses in an increasingly dynamic global economy. The curriculum integrates foundational knowledge in entrepreneurship with practical exposure to innovation processes, startup strategy, financing, risk management, leadership, and growth planning, enabling learners to move from idea to execution with confidence. Emphasising design thinking, opportunity recognition, and market-driven innovation, the programme cultivates an entrepreneurial mindset grounded in creativity, resilience, and ethical responsibility.

Delivered through a flexible online format complemented by immersive on-campus residencies, the programme combines academic excellence with experiential learning, mentorship, and engagement with the startup ecosystem. Learners gain the strategic, financial, and leadership acumen needed to navigate uncertainty, mobilise resources, and build scalable ventures that create economic and societal value. Graduates are prepared to launch new enterprises, drive innovation within organisations, or contribute meaningfully to the broader entrepreneurial and innovation landscape in India and globally.

Course **Structure**

Learning Outcomes

- Identify and evaluate entrepreneurial opportunities using market, technological, and strategic analysis.
- Develop innovative, viable, and scalable business models and venture strategies.
- Apply financial, funding, and valuation principles to plan and sustain startup growth.
- Design and implement risk management approaches for uncertain and dynamic venture environments.
- Demonstrate entrepreneurial leadership, governance, and team-building capabilities in startup contexts.
- Integrate design thinking and innovation methodologies to create user-centric products and services.
- Formulate and communicate compelling business plans, proposals, and investor pitches.
- Navigate startup ecosystems, including investment networks, partnerships, and growth pathways.
- Make ethical, responsible, and sustainability-oriented business decisions.
- Execute a capstone venture or innovation project addressing a real-world entrepreneurial challenge.

Career **Outcomes**

Graduates of the M.A. in Entrepreneurship, Innovation and Startup programme are prepared for diverse roles across the startup, innovation, and venture ecosystem, including:

- **Founder / Co-founder of a startup or new venture**
- **Innovation or New Product Development Manager**
- **Startup Strategy or Growth Manager**
- **Venture Development or Incubation Associate**
- **Business Development Manager in high-growth ventures**
- **Corporate Innovation / Intrapreneurship roles in established organisations**
- **Startup Consultant or Advisor**
- **Venture Capital, Angel Network, or Investment Analyst roles**
- **Family Business Transformation and Expansion roles**
- **Entrepreneurial Project Lead in social or impact ventures**

Graduates may also pursue independent entrepreneurial pathways, scaling their own ventures or building innovation-driven enterprises across sectors such as technology, sustainability, healthcare, education, and digital services.

INDIA'S GLOBAL UNIVERSITY

NUMBER 1 RANKED PRIVATE UNIVERSITY

O.P. Jindal Global University (JGU) is a non-profit, multi-disciplinary and research oriented university founded in 2009. JGU was established as a philanthropic initiative of its Founding Chancellor, Mr. Naveen Jindal in memory of his father, Mr. O.P. Jindal.

JGU has 16,000+ students, 1100+ full-time faculty members, and 2900+ administrative staff in its fully residential campus. JGU's twelve schools focus on Law, Business & Management, International Affairs, Public Policy, Liberal Arts & Humanities, Journalism, Design & Architecture, Banking & Finance, Environment & Sustainability, Psychology & Counselling, Languages & Literature and Public Health & Human Development. Over the last decade, JGU has grown into an institution that brings full-time faculty from 50+ countries in the world, students from 160+ countries and has collaborated with 600+ leading institutions in 80+ countries which makes the learning experience truly international.

JGU is ranked Number 1 in the world with the highest overall score amongst all universities and awarded 'Gold' by the Times Higher Education (THE) Online Learning Rankings 2024. JGU has been ranked as India's Number 1 Private University for three years in a row by the prestigious QS World University Rankings 2023. JGU has been recognised among the Top 150 universities globally under the age of 50 years by the QS Young University Rankings. JGU has also been recognised in the Top 500 Universities as per the QS Graduate Employability Rankings 2022.

The Jindal Global Law School has retained its No. 1 rank in India for seven consecutive years and is ranked Top 35 globally for Law by the QS World University Rankings by Subject 2026. Furthermore, JGU holds the distinction of being India's top university for Politics & International Studies and is ranked Top 90 in the world. JGU also holds the position as India's top private university for Business & Management Studies (among Top 200 in the world), Social Sciences & Management (Ranked Top 232 in the world), Arts & Humanities (Ranked Top 323 in the world), Economics & Econometrics (among Top 500 in the world) as per the QS World University Rankings by Subject 2026. JGU is ranked No.1 University for Law and No.2 University for Psychology in India by the prestigious Times Higher Education (THE) World University Rankings by Subject 2026. In 2025, Jindal Global Business School (JGBS) was awarded the prestigious Association to Advance Collegiate Schools of Business (AACSB) International Accreditation — an accreditation earned by only 6% of business schools worldwide. In 2020, JGU was recognised as an 'Institution of Eminence' by the Ministry of Education, Government of India.

Vice Chancellor's Message

PROF. (DR.) C. RAJKUMAR

Founding Vice Chancellor
O.P. Jindal Global University

Welcome to O.P. Jindal Global University (JGU)-A Private University Promoting Public Service. JGU has consistently affirmed the ideas of interdisciplinary education, diversity, and excellence in our relentless pursuit of knowledge. For this, we have consistently ranked as India's No.1 university dedicated to Social Sciences, Arts and Humanities. Our recognition as an Institution of Eminence (IoE) in 2020 by the Government of India has been another important milestone and a testament to our bright academic journey.

JGU's journey has built its institutional model striving for creativity and excellence in areas of innovative teaching, pedagogy, research, creating new frontiers of knowledge-exchange partnerships. The University's learning ecosystem has also helped harness the benefits of technological change, while improving access to new academic opportunities, enhancing capabilities for all our students. In this regard, we offer courses now in residential, non-residential, online, and blended learning formats across all Schools and Institute at the University.

It is my pleasure to invite you to join the M.Sc. in Development Practice Programme offered by IDEAS, Office of Interdisciplinary Studies in a nonresidential mode and the M.Sc. in Development Studies offered in an online mode.

IDEAS is an institutional space for researchers and scholars across Schools at JGU to work collaboratively and address socio-economic problems from multi-disciplinary, trans-disciplinary and inter-disciplinary perspectives. Incubated research constellations at the Office are best placed to conceptualize and offer a practice- based course on development to train those who are looking to build a career in the practice of development, its application in policy, and in conducting impact evaluation through greater practical, field-based exposure.

Dean's Message

PROF. DEEPANSHU MOHAN

Dean, Office of InterDiscplinary Studies (IDEAS)
Professor of Economics
Jindal School of Liberal Arts and Humanities

IDEAS Office of Interdisciplinary Studies serves as a university-wide incubator for interdisciplinary research by providing an interdomain institutional space for cross-pedagogical learning and research. Through sustained engagement with scholars interested in working beyond the narrow contours of their own disciplines, IDEAS facilitates collaborations across JGU Schools and Institutes to create a novel research ecosystem and thought architecture within each multidisciplinary research constellation.

The coursework of the M.Sc. programme will reflect the interdisciplinary nature of IDEAS, incorporating field based learning in practice from initiatives such as Grassroots Action Program, and Solidarities. This approach ensures that students gain a holistic understanding of development issues, drawing on insights from various disciplines including economics, public policy, sociology, political science, and environmental studies, among others. A primary emphasis of the programme will be on skill-based courses alongside theoretical analysis, moving beyond a traditional development studies curriculum.

This collective effort will ensure that students receive an all-inclusive education, benefiting from the diverse expertise and perspectives of the faculty. A significant emphasis will be placed on students engaging in fieldwork and understanding developmental issues at the grassroots level. This hands-on approach will enable students to gain practical insights and firsthand experience in addressing contemporary development challenges.

ABOUT I.D.E.A.S

(Interdisciplinary Engagement Across Social Sciences)

IDEAS (Office of Interdisciplinary Studies) at JGU serves as a university-wide incubator for interdisciplinary research by providing an institutional space for cross-pedagogical learning, while entrenching its core principles, ethos in core application of interdisciplinary thought and praxis across social sciences. Through sustained engagement with scholars interested in working beyond the contours of their own disciplines, IDEAS facilitates collaborations across JGU Schools and Institutes to create a novel research ecosystem and thought architecture within each multidisciplinary research constellation.

Within IDEAS, four important initiatives have been conceptualized, Solidarities, GAP, Moulding Methods and Haryana Ki Awaaz.

Solidarities is a space for collaborative partnerships between community organisations and the university where we learn from each other, create peer learning spaces, and develop a consciousness rooted in justice, care, and curiosity. Through Solidarities, the university expands knowledge production beyond its walls to include communities, activists, and organisers, challenging the insulated nature of academia to become a more inclusive space.

Grassroots Action Program (GAP) empowers marginalised grassroots communities through long-term engagement and collaborative action-oriented research. The main idea is to learn from the community and anchor scalable interventions for maximum community welfare. We collect empirical data from within the community to design, implement, and evaluate interventions addressing education, health, employment, and women's empowerment.

Moulding Methods is a platform where scholars explore methodological journeys, learning to question, adapt, and shape research methods for complex contemporary challenges. It examines how critical approaches transform traditional methods and reshape knowledge production. Through inclusive, interactive engagement, the initiative builds a community where scholars exchange knowledge and co-create pathways for methodological advancement.

Haryana Ki Awaaz amplifies grassroots stories of resilience from across Haryana's villages and towns. By weaving these voices into development discourse, it democratises access and agency for marginalised communities. Engaging grassroots voices with the university campus, the initiative bridges the gap between the unheard and the change they experience, working toward a more inclusive, participatory, and just Haryana.

IDEASx runs an online learning initiative, which offers curated selection of workshops and courses led by renowned scholars and leading researchers. Our curriculum delves into cutting-edge methodologies, research design, and critical thinking skills – all designed to equip you with the tools to navigate the ever-evolving landscape of interdisciplinary scholarship. IDEASx offers a platform for researchers seeking to broaden their horizons or students yearning to explore new avenues of inquiry. It provides a platform to foster collaboration, challenge assumptions, and spark innovative ideas.

Data Insights at IDEAS is envisioned as a research centre dedicated to fostering a culture of data-centric research, teaching, and learning. Its affiliates will produce data-driven outputs, design courses on data methods and analysis, mentor student projects, and collaborate on publications and proposals. The Centre will also develop a repository of datasets and curated data sources to support research on socio-economic development in India and beyond.

IDEAS (Office of Interdisciplinary Studies) at JGU serves as a university-wide incubator for interdisciplinary research by providing an institutional space for cross-pedagogical learning, while entrenching its core principles, ethos in core application of interdisciplinary thought and praxis across social sciences. Through sustained engagement with scholars interested in working beyond the contours of their own disciplines, IDEAS facilitates collaborations across JGU Schools and Institutes to create a novel research ecosystem and thought architecture within each multidisciplinary research constellation.

Within IDEAS, four important initiatives have been conceptualized, Solidarities, GAP, Moulding Methods and Haryana Ki Awaaz.

Solidarities is a space for collaborative partnerships between community organisations and the university where we learn from each other, create peer learning spaces, and develop a consciousness rooted in justice, care, and curiosity in our communities. Through Solidarities, the university hopes to expand the boundaries of knowledge production beyond university walls to include various communities, activists, and organisers. In the process, we can also challenge the insulated nature of knowledge production in academia to become a more inclusive space.

Grassroots Action Program (GAP) is aimed at empowering the marginalised grassroots communities through long-term and continuous engagement and collaborative action-oriented research. The main idea is to learn from the community and anchor various scalable interventions in a direction that is most impactful for community welfare. We aim to achieve this by collecting empirical data from within the community to design, implement, and evaluate targeted interventions that address issues in education, health, employment, and woman empowerment.

Moulding Methods is a platform to explore the methodological journeys of scholars, empowering researchers to question, adapt, and mould methods that meet the complexities of contemporary research challenges. This initiative delves into how critical approaches challenge traditional methods, reshape knowledge production, and navigate the complexities of research. Through its inclusive and interactive format, it envisions building a community where scholars not only exchange knowledge but also co-create pathways for

INTRODUCTION

M.Sc. in Development Studies

Development, as a concept, has often been understood as a process that offers contradictory outcomes for countries in the Global South. As a rapidly developing nation, India faces multifaceted challenges requiring innovative and interdisciplinary solutions. For example, even as the last decade has seen a steady increase in GDP and educational attainment in India, youth unemployment has also increased, a phenomenon that some call jobless growth. As countries in the Global South strive for GDP growth and development, their people, particularly those from poor and marginalised communities, are becoming even more vulnerable to the climate crisis that results from unbridled growth. The MSc in Development Studies at IDEAS aims to equip students with theoretical knowledge, fieldwork experiences, and practical skills to examine and address these difficult challenges.

By focusing on a combination of theory, skills, experimental and real-world experiences, the programme prepares students to bridge the gap between societal need, policy design, and implementation while centring inclusion and people's well-being. Alongside addressing development challenges, ensuring our students' employability has been a principal factor in conceptualising the program.

Catering to both working professionals and fresh graduates, the Development Studies programme is designed to include several skills and research-based courses that prepare students for successful careers in the development sector and beyond. Classes will be held in an online mode, enabling students to pursue the programme from any location, while managing their jobs or other commitments.

Immersion Program

The MSc Development Studies Immersion Program is a nine-day, fully residential module designed to move learning beyond the classroom and into the real-world contexts where development work unfolds. Conceived as an intensive bootcamp and budgeted at ₹50,000, the program is an integral component of the curriculum rather than a supplementary add-on. It offers students hands-on exposure to the complexities, challenges, and lived realities of the development sector through method-focused workshops, field-based learning, and close faculty supervision aligned with themed research interests. Emphasising peer learning and practice-based engagement, the immersion creates a dynamic academic environment that mirrors professional settings. Far from being a mere certificate-granting exercise, the program ensures that participation carries lasting academic, professional, and practical value. Anchored in a broad understanding of “industry,” encompassing think tanks, civil society organisations, policy institutions, and research bodies, the immersion equips students with skills relevant to diverse career pathways while enabling meaningful networking with potential employers. Committed to the highest standards of academic integrity, ethical practice, and professional relevance, the program represents an innovative pedagogical model in development studies and serves as a pilot for scaling similar initiatives across other university entities in the future.

PROGRAM HIGHLIGHTS

- **Fully Online & Flexible Learning:** Synchronous live sessions, combined with asynchronous recorded content, allowing flexibility for professionals.
- **Blended Pedagogy:** Live lectures, case-based discussions, peer learning forums, online workshops, and recorded masterclasses.
- **Masterclasses:** Exclusive access to masterclasses featuring global experts in development practice.
- **Global Community:** Cohort drawn from diverse academic and professional backgrounds, fostering rich interdisciplinary dialogue.

PROGRAM STRUCTURE

The M.Sc. in Development Studies will be a one-year online programme and is divided into three trimesters with 4 courses in the first 2 trimesters, and 3 courses in the 3rd trimester including dissertation. Each course is of 5 credits and dissertation is 10 credits.

TRIMESTER 1	TRIMESTER 2	TRIMESTER 3
Theoretical Perspectives on Development	Poverty, Inequality, and Human Development	Project Management and Evaluation
Introduction to Quantitative Research	Introduction to Qualitative Research	State, Democracy and Social Change
Political Economy of India's Development	Data Analysis	Dissertation*
Academic Writing and Research Writing	Sustainable Development: Technology and Exclusion	

**Dissertation policy on choosing faculty mentors, details of dissertation committee, and mentorship guidelines details are available separately. The dissertation is 10 credits, whereas all the courses are 5 credits each.*

CLASS TIMINGS

- Asynchronous Learning: Recorded lectures, readings, and discussion boards accessible 24/7.
- Some live sessions will be based on flexible timeline.
- Virtual Workshops & Masterclasses: Scheduled throughout the trimester with international faculty and experts.
- Virtual events such as Nazariya, Swaroop, Samagana, and Weekly Reading Circles.

ADMISSION DETAILS

Program Fee (one year)	• 2,75,000 INR
Registration fee payable	• 25,000 INR
Remaining fee payable	• 2,50,000 INR Flexible fee payment options available
Who should apply?	• Recent graduates from any discipline. • Working professionals and independent researchers.
Why should you apply?	• Experienced faculty with both theoretical and practice-based knowledge. • Flexible timetable, ideal for part-time workers and working professionals. • Innovative pedagogies and interactive classroom environment. • Training in qualitative and quantitative methods. • Engagement with practitioners through IDEAS initiatives. • Blend of classroom and experiential learning. • Extensive toolkit of transferable skills. • Training in dissertation research and writing for aspiring researchers and PhD aspirants. • Strategic location at New Delhi.
What careers can you pursue after this?	• Wide range of careers in social sector (as programme managers, coordinators, evaluators). • Policy and development consultancy. • Data analytics and Data Journalism. • Researcher/Academia. • Development Journalism. • Corporate Social Responsibility (CSR). • Social entrepreneurship.

Jodo EMI Facility for Course Fee

OP Jindal Global University provides an opportunity to pay the fees in monthly installments at nominal cost through Jodo, an education centric financial services company founded by IIT-IIM alumni

JODO monthly payment plan comes at a low cost and offers the following benefits for all students:

- Covers all courses offered by JGU Online
- Fully digital process, takes around 15 mins to complete all loan formalities (from application to loan agreement signature)
- Only a PAN number is required for initial registration and approval
- 24×7 helpline number to assist you in your application

You can register for the plan at https://app.jodo.in/jgu or call Jodo representatives at 99729 82193, 96201 42953 for any assistance.

About JGU

O.P. Jindal Global University (JGU) is a multidisciplinary, research-oriented university founded in 2009 by Mr. Naveen Jindal, in memory of his father Mr. O.P. Jindal. The university has faculty from 50+ countries, students from 75+ countries, and partnerships with 525+ institutions in 80+ countries.

About JSLH

Jindal School of Liberal Arts and Humanities (JSLH) is introducing the one-year online Master's programme, Master of Science (M.Sc.) in Design Thinking, Innovation & Strategy, which is designed with the belief that education is more than just the act of acquiring knowledge; it should empower the learner to instigate change and drive transformation. With a carefully designed industry-relevant curriculum, this programme includes courses in Design Thinking, Innovation, Business Models, Marketing, Leadership & Culture, Business Strategy and Foresight, and Emerging and Disruptive Technologies, in an accessible virtual learning environment with experienced faculty members.

Message from the **Vice Chancellor**

Since its inception in 2009, O.P. Jindal Global University (JGU) has grown into a multi-disciplinary and research-oriented university widely recognised as India's No. 1 Private University in national and international university rankings. To ensure that we can fulfill the aspirations of people across the world, JGU commenced online degree programmes in 2020. In recognition of our consistent delivery of world-class education in virtual classrooms, JGU was ranked Number 1 in the world with the highest overall score amongst all universities and awarded 'Gold' by the Times Higher Education (THE) Online Learning Rankings 2024.

Jindal School of Liberal Arts and Humanities (JSLH) is introducing the one-year online Master's programme, Master of Science M.Sc. in Design Thinking, Innovation & Strategy which is designed with the belief that education is more than just the act of acquiring knowledge; it should empower the learner to instigate change and drive transformation. With a carefully designed industry-relevant curriculum, this programme includes courses in Design Thinking, Innovation, Business Models, Marketing, Leadership & Culture, Business Strategy and Foresight, and Emerging and Disruptive Technologies, in an accessible virtual learning environment with experienced faculty members.

Through this programme, our goal is to provide the students of this course with the intellectual tools, real-world insights, and critical thinking skills essential to thrive in complex and evolving professional environments. This programme will allow growth-oriented professionals to advance in their career with confidence, enable them to shift into a new field, or pursue further research. This innovative and unique programme is a testament to our commitment to shaping the next generation of leaders, thinkers, and changemakers in the realm of business and management.

Prof. (Dr.) C. Raj Kumar

Founding Vice-Chancellor
O.P. Jindal Global University (JGU)

Message from the **Dean**

Following many successful years of offering the undergraduate major in Design Thinking, the Jindal School of Liberal Arts and Humanities (JSLH), is offering the online advanced level M.Sc. in Design Thinking, Innovation & Strategy. The academic rigour and a unique interdisciplinary approach distinguishes this graduate course within the field of international business, marketing and other areas that require solid problem-solving skills. Intensive classes examine topics including; Design Thinking, Innovation, Business Models, Marketing, Leadership and Culture, Business Strategy and Foresight, and Emerging and Disruptive Technologies. The classes and learning environment allow students to identify a problem and find solutions that are adapted to a particular economic, and socio-cultural situation. Graduates of the course will be well-prepared to assume leadership in any field that relies on innovation, flexibility and creative thinking. This course is suitable for both recent undergraduates as well as for professionals who wish to broaden their skills.

Prof. Kathleen A. Modrowski

Professor & Dean
Jindal School of Liberal Arts and Humanities (JSLH)

Programme Overview

The M.Sc. in Design Thinking, Innovation & Strategy is a rigorous 1-year online master's degree designed to equip learners with the mindset and skillset to drive meaningful change in today's fast-evolving world. Blending creativity, strategy, and technology, the programme introduces learners to the principles of human-centred design, innovation management, and business model transformation. Through a carefully curated curriculum, global case studies, and hands-on projects, students develop practical tools for problem-solving, ideation, and rapid prototyping. The programme also integrates exposure to emerging and disruptive technologies, preparing graduates to anticipate future trends and craft innovative solutions that are both sustainable and impactful. Culminating in a capstone project and enriched by a short on-campus immersion, this degree offers a unique balance of academic depth, practical application, and global perspectives.

Course Structure

Term 1

Courses	Credits
The Technology & Innovation Imperative: What and why of Innovation & Design Thinking	5
Business Growth Engine: Marketing Strategy	5

Business Model Design & Innovation: Creating, Delivering & Capturing Value	5
Competing to Win: Driving Change & Transformation Based on Strategic Foresight	5
Total Credits	**15**

Term 4

Courses	Credits
Creating Enduring Value: Service & Experience Design	5
Capstone Project/ Thesis/ Experiential Learning	10
Total Credits	**15**

Total Programme Credits: 60

Courses delivered may have variations in theme and scheduling.

Tuition & Financing

Total Fee: INR **2,75,000**

Fee	Amount	Due Date
Registration Fee Payable	25,000	To be paid upon the acceptance of the offer letter
Remaining Fee Payable	2,50,000	To be paid as per the structure given by the university

Direct Payment Options

Payments can be made using credit cards, debit cards, net banking, UPI, and international payment methods.

Financing Options (For Indian Applicants)

O.P. Jindal Global University provides an opportunity to pay the fees in monthly installments at nominal cost through Jodo, an education centric financial services company founded by IIT-IIM alumni.

- Fully digital process, takes around 15 mins to complete all loan formalities (from application to loan agreement signature)
- Only a PAN number is required for initial registration and approval.

Admissions

Intakes each year:

September Cohort

Eligibility Criteria:

Applicants must meet the following criteria to be considered for admission to the **M.Sc. in Design Thinking, Innovation & Strategy**

- Minimum 60% marks in both Class 10 and Class 12.
- Minimum 50% marks in a bachelor's degree from a recognized university.

Selection Criteria:

- Submission of a completed application form along with a Statement of Purpose (SOP).
- Admission is based on personal interview and valid test scores (JSAT / CAT / GMAT)

Programme Outcomes

Skills You'll Gain

- **Design Thinking Mastery** – empathy, ideation, prototyping, testing
- **Strategic Innovation** – business model design, foresight & growth strategies
- **Customer-Centric Mindset** – service & experience design
- **Creative Problem-Solving** – tackling complex, real-world challenges
- **Leadership & Collaboration** – managing innovation teams and projects

Where You Can Work

- **Technology & IT** – product innovation, process innovation
- **Consulting & Strategy** – innovation consulting, business transformation
- **Healthcare & Education** – designing patient/learner experiences
- **Finance & Retail** – customer insights, new service models
- **Startups & Entrepreneurship** – launching ventures, scaling ideas

Career Roles

- **Innovation Manager / Consultant** – driving transformation projects
- **Design Thinking Specialist** – embedding creative methods in organizations
- **Customer Experience (CX) Designer** – shaping user journeys & experiences
- **Product / Service Designer** – building solutions that meet real needs
- **Strategy & Foresight Analyst** – anticipating change & guiding growth
- **Entrepreneur** – creating impact-driven startups

About
Jindal School of Banking & Finance (JSBF)

At Jindal School of Banking & Finance (JSBF), we understand the importance of highly trained professionals in the interdisciplinary fields of technology, innovation, analytics, finance, accounting, risk and regulations. Our bachelor's & master's degree programmes are designed to equip you with the skills and knowledge needed to become a future business leader in this rapidly evolving industry.

Message from the **Vice Chancellor**

O.P. Jindal Global University (JGU) was established with the vision to be a centre for world class global education, and a catalyst for transformation and innovation. Marking a significant leap in pursuing that vision, it is my great pleasure to announce the launch of the online Master of Science (M.Sc.) in Global Risk Management at the Jindal School of Banking & Finance (JSBF), delivering a future focused curriculum through the pioneering approach of virtual classrooms with live sessions with world class faculty.

Driven by the vision to reimagine financial education for the 21st century, JSBF brings together experienced faculty members, online classes and experiential learning to deliver a holistic education ecosystem designed for the ambitions of the new age of learners. The programme is purposefully designed to train future leaders navigate the management and mitigation of various types of enterprise risk through the interdisciplinary lens, with a focus on hands-on learning and industry exposure.

In alignment with JGU's broader mission to be a multidisciplinary, research-oriented and socially responsible institution, the M.Sc. in Global Risk Management is focused on shaping socially aware, professionally adept, and intellectually curious individuals who will contribute positively to the world. I am confident that this transformative programme will empower each student to embark on a journey that connects ambition and access, knowledge and application, and education and impact.

Prof. C. Raj Kumar

Founding Vice Chancellor
O.P. Jindal Global University

Message from the **Dean**

It brings me immense pleasure to welcome you to the one-year online M.Sc. in Global Risk Management at the Jindal School of Banking & Finance (JSBF). This rigorous and globally focused programme is designed for professionals seeking to master the complexities of modern risk management while balancing their careers.

The curriculum blends international best practices with the evolving needs of India's financial markets by integrating the prestigious GARP Financial Risk Manager (FRM) aligned courses with advanced academic learning. Incorporating market, credit, operational, and regulatory risk frameworks, our programme ensures graduates are well-prepared for both the M.Sc. degree and FRM certification, which are highly valued credentials worldwide.

Through interactive virtual seminars, case studies, and peer learning, the learners will engage with a diverse network of professionals and expert faculty. Supported by JSBF's online support team, virtual labs, and digital library resources, this transformative programme will equip you to thrive as a globally competent risk management professional. I once again welcome you all and wish you tremendous success in your academic and professional journey.

Warm Regards,

Prof. (Dr.) Dayanand Pandey

Dean
Jindal School of Banking & Finance

Message from the **Chair**

With great pleasure, I invite you to explore the online M.Sc. in Global Risk Management, an innovative programme designed to train professionals for the complex and interconnected risk landscape of today's world.

Amid financial volatility, climate change, geopolitical uncertainty, and cyber threats, the need for expert risk professionals has never been higher. This programme addresses that need through a curriculum integrating GARP Financial Risk Manager (FRM)-aligned courses

with advanced academic training, combining global best practices with insights from India's dynamic markets.

The programme is delivered in a flexible quarterly format and it enables learners to balance rigorous learning with their personal and professional commitments. Our programme offers learners the opportunity to engage with distinguished professionals from central banks, rating agencies, and global corporations, while gaining hands-on experience on live projects ranging from stress testing frameworks to enterprise risk management implementations.

This programme equips you for leadership roles across sectors, whether managing risks in banks, consulting on resilience, pricing climate risks in insurance, or addressing AI-driven risks in fintech. Join us on this transformative journey to build a more resilient future where risks become opportunities for sustainable growth.

Warmest Regards,

Prof. Ram B. Ramachandran

Professor & Vice Dean
Chair, Center for Digital Learning
Jindal School of Banking & Finance

About the Programme

The **1-year online M.Sc. in Global Risk Management** is an industry-aligned programme that equips professionals to navigate the complexities of today's global financial landscape. Integrating advanced academic learning with GARP FRM-aligned coursework, it offers comprehensive coverage of market, credit, operational, and regulatory risks. Delivered in a flexible quarterly format, the programme combines theory with hands-on projects, case studies, and industry engagement through expert-led sessions. With distinguished faculty, global perspectives, and strong industry connections, it prepares learners to lead risk management roles across banking, insurance, consulting, fintech, and regulatory sectors.

Admissions

Batch Starts

September 2026

Eligibility

- Undergraduate degree with at least 50% marks
- **Candidates with less than 50% marks must:**
  1. Appear for the JSAT examination
  2. Attend a mandatory interview

Selection Criteria

Selection will be based on a comprehensive review of the application, statement of purpose, and academic transcripts. Shortlisted candidates may also be invited for a brief personal interview, if required.

Tuition & Financing

Fee	Amount	Due Date
Registration Fee Payable	**INR 25,000**	To be paid upon the acceptance of the offer letter
Remaining Fee Payable	**INR 2,50,000**	To be paid as per the structure given by the University
Total Credits	**INR 2,75,000**	

Direct Payment Options

Payments can be made using credit cards, debit cards, net banking, UPI, and international payment methods.

Financing Options (For Indian Applicants)

O.P. Jindal Global University provides an opportunity to pay the fees in monthly installments at nominal cost through Jodo, an education centric financial services company founded by IIT-IIM alumni.

- Fully digital process, takes around 15 mins to complete all loan formalities (from application to loan agreement signature)
- Only a PAN number is required for initial registration and approval.

Career Outcomes

Graduates of the M.Sc. in Global Risk Management are equipped to take on leadership and analytical roles across the financial and corporate sectors. The programme prepares learners for careers such as **Risk Analysts, Enterprise Risk Managers, Credit and Market Risk Specialists, Compliance Officers, Risk Consultants, and Quantitative Analysts in banks, insurance companies, consulting firms, fintechs, regulatory bodies, and multinational corporations.**

The FRM-aligned curriculum also offers a strong foundation for pursuing the GARP FRM certification, a globally recognized credential that enhances professional credibility and career progression. In a world where risk management is shifting from a compliance function to a strategic advantage, graduates emerge ready to lead transformation and resilience in the global financial landscape.

MESSAGE FROM THE

Vice Chancellor

Prof. (Dr.) C. Raj Kumar

Founding Vice Chancellor
O.P. Jindal Global University

O.P. Jindal Global University (JGU) was established with the vision to be a centre for world class global education, and a catalyst for transformation and innovation.

Marking a significant leap in pursuing that vision, it is my great pleasure to announce the launch of the online Bachelor of Science (B.Sc.) in Finance and Entrepreneurship, from the Jindal School of Banking & Finance (JSBF). With a future-focused curriculum through the pioneering approach of combining virtual and traditional classrooms, and driven by the vision to reimagine financial education for the 21st century, JSBF brings together experienced faculty members, virtual classrooms and experiential learning to deliver a holistic education ecosystem designed for the ambitions of the new age of learners.

The online B.Sc. in Finance & Entrepreneurship is purposefully designed to train future leaders in navigating the constantly evolving domain of financial management through the interdisciplinary lens, with a focus on hands-on learning and industry exposure. In alignment with JGU's broader vision and mission of being a multidisciplinary, research-oriented and socially responsible institution, this new programme is focused on shaping socially aware, professionally adept, and intellectually curious individuals who will contribute positively to the world. I am confident that these transformative programmes will empower each student to embark on a journey that connects ambition and access, knowledge and application, and education and impact.

MESSAGE FROM THE

Dean

Prof. (Dr.) Dayanand Pandey

Professor & Dean
Jindal School of Banking & Finance

Welcome to the online Undergraduate Programmes of the Jindal School of Banking & Finance (JSBF) - a bold and future-oriented academic venture that reflects the rapidly transforming landscape of global finance. Whether your interests lie in the precision of accounting, the power of AI, or the dynamism of entrepreneurship, you are entering a learning environment where disciplines converge and innovation thrives. Finance today is no longer confined to ledgers and boardrooms. It now engages directly with artificial intelligence, sustainability, startup ecosystems, digital currencies, and societal transformation.

Our online B.Sc. in Finance and Entrepreneurship is meticulously crafted to prepare you for this multidimensional reality. At JSBF, we are committed to cultivating graduates who are not only intellectually rigorous but also ethically grounded and professionally agile. Our online learning structure – combining online academic depth, on-campus experiential immersion, and co-op industry engagements – ensures that you are prepared not just for a job, but for a career of leadership and impact. You will gain hands-on exposure to tools such as Python, Tableau, and real-time data sets, while participating in interactive workshops, real-world simulations, and startup labs. More importantly, you'll learn directly from a faculty that brings a rich blend of scholarly expertise, industry insight, and global relevance to the classroom.

We invite you to explore, challenge, and reimagine the future of finance with us. At JSBF, you're not just earning a degree – you're stepping into a community that believes in shaping leaders for a digital, entrepreneurial, and inclusive economy.

Message from the **Chair**

Prof. (Dr.) Ram B. Ramachandran

Professor & Vice Dean,
Jindal School of Banking & Finance
Chair, Center for Digital Learning

Congratulations and a warm welcome to the Jindal family! It brings me great joy to introduce you to a unique academic journey at the Jindal School of Banking & Finance (JSBF) — a place where innovation, purpose, and excellence converge. By choosing the online B.Sc. in Finance and Entrepreneurship, you are stepping into a programme that goes beyond conventional education — it's a launchpad for transformative careers in finance, technology, and enterprise leadership.

At the Center for Digital Learning, we are committed to bringing the future into your classroom. From virtual trading labs and Python-powered data environments to AI simulations, digital finance platforms, and immersive campus learning experiences, your education will be deeply rooted in digital fluency and real-world relevance. This programme offers a carefully curated mix of core financial principles, emerging technologies, and hands-on learning, empowering you with interdisciplinary expertise. You will learn to navigate complex problems, communicate with impact, and act with responsibility whether you are analyzing financial markets, building entrepreneurial ventures, or decoding intelligent systems.

You will also benefit from interactions with industry mentors, startup founders, auditors, AI experts, and global faculty who bring frontier insights directly into your learning environment. As you begin this journey, know that you are part of a new generation of finance professionals – individuals who are not only analytically sharp and ethically grounded, but also digitally equipped and future-ready.

Welcome aboard. We look forward to helping you imagine, build, and lead the future of Finance.

ABOUT THE

Programme

The B.Sc. in Finance & Entrepreneurship (Online) at O.P. Jindal Global University is a future-focused undergraduate programme designed to equip learners with a strong foundation in finance, combined with the mindset and skills required to build and scale entrepreneurial ventures in a digital-first world.

Delivered in a fully online format, the programme offers the flexibility to learn from anywhere, without compromising on academic rigour or industry relevance. Through a carefully curated curriculum, students gain expertise in core areas such as financial markets, corporate finance, accounting, and investment analysis, while also exploring emerging domains like FinTech, data analytics, artificial intelligence, and digital entrepreneurship.

The programme adopts a practical, career-oriented approach, integrating real-world case studies, simulations, and industry-led masterclasses to bridge the gap between theory and application. Learners also benefit from personalised academic support, career guidance, and exposure to global perspectives through JGU's extensive academic ecosystem.

Designed for the next generation of finance professionals and founders, this programme empowers students to think critically, act ethically, and innovate confidently, preparing them for dynamic careers across finance, consulting, startups, and the evolving digital economy.

  Shortlisted candidates are invited for a personal interview.
- **Final Selection**
  Admission is granted based on overall performance across the assessment and interview.

TUITION &

Financing

Fee	Amount	Due Date
Registration Fee Payable	INR 25,000	To be paid upon the acceptance of the offer letter
Remaining Fee Payable	INR 1,95,000	To be paid as per the structure given by the University.
Total Fees	**INR 2,20,000**	

Jodo EMI Facility for Course Fee

OP Jindal Global University provides an opportunity to pay the fees in monthly installments at nominal cost through Jodo, an education centric financial services company founded by IIT-IIM alumni

JODO monthly payment plan comes at a low cost and offers the following benefits for all students:

- Covers all courses offered by JGU Online
- Fully digital process, takes around 15 mins to complete all loan formalities (from application to loan agreement signature)
- Only a PAN number is required for initial registration and approval
- 24×7 helpline number to assist you in your application

You can register for the plan at https://app.jodo.in/jgu or call Jodo representatives at 99729 82193, 96201 42953 for any assistance.

LEARNING

Outcomes

Upon successful completion of the B.Sc. in Finance & Entrepreneurship (Online) at O.P. Jindal Global University, learners will be able to:

Build Strong Financial Foundations

Apply core concepts in financial accounting, corporate finance, financial markets, and investment analysis to real-world scenarios.

Leverage Data & Technology in Finance

Use tools and techniques such as data analytics, AI, and FinTech applications to solve complex financial and business problems.

Develop an Entrepreneurial Mindset

Identify opportunities, design business models, and understand the fundamentals of building and scaling ventures.

Apply Critical Thinking & Problem-Solving Skills

Analyse dynamic business environments and make informed, strategic decisions with a structured and analytical approach.

Understand Risk, Governance & Ethics

Evaluate financial risks and operate with a strong grounding in corporate governance, sustainability, and ethical practices.

Communicate with Professional Impact

Present financial insights and business ideas effectively across diverse professional settings.

Prepare for Diverse Career Pathways

Gain the knowledge and practical exposure required for roles in finance, consulting, startups, and emerging tech-driven industries.

You will learn to navigate complex problems, communicate with impact, and act with responsibility whether you are analyzing financial markets, building entrepreneurial ventures, or decoding intelligent systems. You will also benefit from interactions with industry mentors, startup founders, auditors, AI experts, and global faculty who bring frontier insights directly into your learning environment.

As you begin this journey, know that you are part of a new generation of finance professionals – individuals who are not only analytically sharp and ethically grounded, but also digitally equipped and future-ready.

Welcome aboard. We look forward to helping you imagine, build, and lead the future of finance.

About the **Programme**

The B.Sc. in Artificial Intelligence and Finance is a future-focused, interdisciplinary programme designed for learners who aspire to thrive at the intersection of technology, data, and financial systems. Delivered in a fully online format, the programme offers the flexibility to learn from anywhere while gaining industry-relevant knowledge and skills aligned with the evolving global economy.

Blending the analytical depth of finance with the transformative power of artificial intelligence, this programme equips learners with a strong foundation in financial principles, data analytics, machine learning, and emerging fintech applications. The curriculum is carefully structured to enable students to build dual fluency in both domains, preparing them to navigate complex financial ecosystems driven by data and intelligent technologies.

Through a combination of self-paced lectures, live masterclasses, and interactive learning experiences, students engage with concepts in a manner that is both rigorous and practical. The programme emphasises hands-on learning through tools such as Python, data visualisation platforms, and AI-based financial modelling, ensuring learners are industry-ready from day one.

A distinctive feature of the programme is its strong focus on real-world application. Learners benefit from continuous industry exposure, mentorship, and structured opportunities to apply their knowledge in practical contexts, bridging the gap between academic learning and professional practice.

Designed for the ambitions of modern learners, this online programme offers flexibility without compromising on academic excellence. It empowers students to build meaningful careers across domains such as fintech, investment analysis, risk modelling, data science, and digital finance, while also fostering critical thinking, ethical decision-making, and global perspective.

Learning Outcomes

- **Develop interdisciplinary expertise** by integrating core concepts of finance with artificial intelligence, data analytics, and emerging financial technologies.
- **Apply analytical and technical skills** to interpret financial data, build predictive models, and support data-driven decision-making using tools such as Python and data visualisation platforms.
- **Understand financial systems and markets** including investment analysis, risk management, corporate finance, and digital financial ecosystems.
- **Leverage AI and machine learning** techniques to solve real-world financial problems, including forecasting, automation, and intelligent decision systems.
- **Demonstrate practical problem-solving abilities** through hands-on projects, simulations, and real-world applications in fintech and financial services.
- **Evaluate ethical, regulatory, and societal implications** of AI and digital finance, ensuring responsible and informed decision-making.
- **Communicate insights effectively** through data storytelling, visualisation, and professional presentation skills tailored for business and technology environments.
- **Build career readiness** with exposure to industry practices, tools, and workflows, enabling seamless transition into roles across finance, technology, and analytics domains.

About O.P. Jindal Global University

O.P. Jindal Global University (JGU) is a multidisciplinary, research-oriented university founded in 2009 by Mr. Naveen Jindal, in memory of his father Mr. O.P. Jindal. The university has faculty from 50+ countries, students from 75+ countries, and partnerships with 525+ institutions in 80+ countries.

About Jindal School of Banking & Finance (JSBF)

At Jindal School of Banking & Finance (JSBF), we understand the importance of highly trained professionals in the interdisciplinary fields of technology, innovation, analytics, finance, accounting, risk and regulations. Our undergraduate degree programmes are designed to equip you with the skills and knowledge needed to become a future business leader in this rapidly evolving industry.

Message from the **Vice Chancellor**

O.P. Jindal Global University (JGU) was established with the vision to be a centre for world class global education, and a catalyst for transformation and innovation. Marking a significant leap in pursuing that vision, it is my great pleasure to announce the launch of the online Bachelor of Commerce (B.Com) in International Accounting & Finance at the Jindal School of Banking & Finance (JSBF), delivering a future focused curriculum through the pioneering approach of virtual classrooms with live sessions with world class faculty.

Driven by the vision to reimagine financial education for the 21st century, JSBF brings together experienced faculty members, online classes and experiential learning to deliver a holistic education ecosystem designed for the ambitions of the new age of learners. The programme is purposefully designed to train future leaders navigate the evolving domain of Assurance, Audit, Accounting, and Taxation through the interdisciplinary lens, with a focus on hands-on learning and industry exposure.

In alignment with JGU's broader mission to be a multidisciplinary, research-oriented and socially responsible institution, the B.Com in

International Accounting & Finance is focused on shaping socially aware, professionally adept, and intellectually curious individuals who will contribute positively to the world. I am confident that this transformative programme will empower each student to embark on a journey that connects ambition and access, knowledge and application, and education and impact.

Prof. C. Raj Kumar
Founding Vice Chancellor
O.P. Jindal Global University

Message from the **Dean**

It is my pleasure to welcome you to our three-year online Bachelor of Commerce program in International Accounting & Finance. Your decision to embark on this journey reflects your vision to build a strong foundation in global business while embracing the flexibility of digital learning that defines modern education.

This program represents the epitome of interdisciplinary education, where you will explore the convergence of accounting principles, international finance, economics, business law, quantitative analysis, emerging technology, and cross-cultural management – creating a holistic understanding of multiple fields of knowledge that allows you to apply theoretical knowledge to practical challenges.

At JSBF, we take great pride in ensuring that you develop both the analytical rigor of accounting and the strategic thinking required for international finance. This multifaceted perspective is essential in an era where businesses operate across borders and professionals must navigate diverse regulatory, cultural, and economic environments.

During the program, you will develop increasingly vital core competencies in not only accounting, international taxation, and foreign exchange management, but also develop critical skills in data analytics, digital financial tools, sustainability reporting, and ethical decision-making

Through our online platform, you will engage with our distinguished faculty, participate in virtual simulations, and collaborate with classmates from different regions and backgrounds, enriching your global perspective.

Wishing you an enriching and successful academic journey ahead.

Warm regards,

Prof. (Dr.) Dayanand Pandey

Professor and Dean
Jindal School of Banking & Finance

Message from the **Chair**

Dear Students,

First off, congratulations and a warm welcome to our Jindal family! I am absolutely thrilled that you are considering joining us at the Jindal School of Banking & Finance.

At the Center for Digital Learning, we have integrated advanced learning technologies and immersive digital experiences throughout your curriculum. From AI-powered simulation environments and a computing laboratory to virtual trading floors and global collaboration platforms, these digital tools will amplify your learning journey beyond conventional boundaries.

The program is curated with meticulous design that will position you at the convergence of traditional risk management expertise and cutting-edge digital capabilities—a nexus where tomorrow's leaders will emerge. The program's courses are integrated with the global Association of Chartered Certified Accountants (ACCA) professional certification organization.

Our faculty, industry partners, and global network stand ready to support your growth into professionals who will drive innovation and ethical leadership in the financial ecosystem of tomorrow.

Whether you are stepping into the world of Finance, Accounting, Audit or Assurance for the first time or looking to build a strong foundation in one of the most critical areas of modern finance, know that you are not just starting a degree—you are beginning a transformative journey that will shape your thinking, sharpen your analytical skills, and prepare you to lead in an unpredictable world.

Warmest regards,

Prof. Ram B. Ramachandran

Professor and Vice Dean
Chair, Center for Digital Learning
Jindal School of Banking & Finance

About the Programme

B.Com. in International Accounting & Finance is a fully online, future-ready undergraduate programme designed to equip learners with global perspectives and practical expertise in accounting, finance, and business management. Through an interdisciplinary curriculum that integrates technology, analytics, and real-world case studies, the programme prepares students to excel in areas such as audit, assurance, taxation, and international financial management. Delivered through live online classes by distinguished faculty, it offers a flexible and immersive learning experience that bridges academic excellence with industry relevance. Students also get an ACCA-integrated curriculum, giving them access to global career opportunities in the UK, Europe, Middle East, and other international markets.

Total Programme Credits – 162

Admissions

Batch Starts

September 2026

Eligibility

Minimum 50% in class 12, with either Maths, Business Maths, statistics, Economics or accounting as one of the subjects.

Selection Criteria

Selection will be based on a comprehensive review of the application, statement of purpose, and academic transcripts. Shortlisted candidates may also be invited for a brief personal interview, if required.

Tuition & Financing

Fee	Amount	Due Date
Registration Fee Payable	**INR 25,000**	To be paid upon the acceptance of the offer letter
Remaining Fee Payable	**INR 1,95,000**	To be paid as per the structure given by the University
Total Fee	**INR 2,20,000**	

Direct Payment Options

Payments can be made using credit cards, debit cards, net banking, UPI, and international payment methods.

Financing Options (For Indian Applicants)

O.P. Jindal Global University provides an opportunity to pay the fees in monthly installments at nominal cost through Jodo, an education centric financial services company founded by IIT-IIM alumni.

- Fully digital process, takes around 15 mins to complete all loan formalities (from application to loan agreement signature)
- Only a PAN number is required for initial registration and approval.

Career Outcomes

Graduates of the programme can pursue diverse roles such as:

- **Financial Analyst –** interpreting data to guide investment and business decisions.
- **Auditor or Assurance Specialist –** ensuring transparency and compliance in financial reporting.
- **Tax Consultant –** advising individuals and corporations on taxation strategies and regulations.
- **Management Accountant –** supporting strategic planning, budgeting, and performance analysis.
- **Investment or Risk Analyst –** evaluating portfolios and managing financial risks.
- **Corporate Finance Professional –** handling mergers, acquisitions, and financial restructuring.
- **Entrepreneur or Business Advisor –** applying financial acumen to launch ventures or consult in emerging markets.
